

# Start S.M.A.R.T. in 2025

## Specific

*What do you want to achieve?  
Why? How will you achieve it?*

Example: I will increase my physical activity by walking two days per week on my lunch break for 30 minutes on Monday and Wednesday.

## Measurable

*Establish concrete criteria for measuring progress.*

Example: I will track my stats and steps by using my smart watch and printed tracking sheet.

## Action-Oriented

*What intentional step(s) can you take to move closer to your goal?*

Example: I will work with a health coach, create a walking music playlist, keep a pair of sneakers by my desk, set a calendar reminder on Outlook, and place my goal sheet by my workspace.

## Realistic

*Is this goal realistic with effort and commitment?*

Example: Yes, this is realistic because I can balance out my life and obligations while including my walking break without feeling overwhelmed or pressured.

## Time-bound

*Set a start and end date—how will you know when you have completed your goal?*

Example: I will begin on April 1 and will complete my goal by May 13.
