

The attached "Wash Hands" .pdf is provided for display in state office building rest rooms.

REDUCE YOUR RISK OF COLD,
FLU, HEPATITIS A

Please remember to take precautions

HELP PROTECT YOURSELF & OTHERS

- Wash your hands thoroughly with warm water & soap.
- Get a flu shot, and consider a Hepatitis A shot. It's your best defense! Both are free for KEHP members.
- If you feel sick, stay home! There's nothing important enough to jeopardize your coworkers' health.

Because we care about your health.
