

Reminder - Tobacco-free survey

UK studies impact of Governor's Tobacco-free executive order

March 10, 2015 | Frankfort, Kentucky

Hello.

I am sending this reminder email on behalf of Ellen Hahn, Professor at the University of Kentucky in the College of Nursing. The purpose of this email is to remind you to take part in a research study, Impact of the Governor's Tobacco-free Executive Order.

The researchers want to learn how the tobacco-free policy will impact Kentucky state employees. Since you are a Kentucky state employee, we invite you to complete a short online survey. We will also invite you to take another survey in about six months. All employees can take the survey whether or not they use tobacco.

Please click on the link to take the first survey. The survey will take 10-15 minutes to complete. Your information will be anonymous and it will go directly to UK. The researchers will keep the identity of all participants confidential.

Click here to take the survey

You are welcome to contact Professor Hahn with questions about the research study, ejhahn00@email.uky.edu or 859-257-2358.

Thank you in advance for your assistance with this important project as UK researchers strive to learn more about tobacco-free policies.

Sincerely,

Stephanie K. Mayfield Gibson, MD, FCAP
Commissioner, Kentucky Department for Public Health
275 East Main Street
Frankfort, KY 40621
