

Voucher: HumanaVitality Members (Health Dept)

The Kentucky Local Health Departments are professional, preventive healthcare clinics located in each county of the Commonwealth. The mission of Public Health is to improve the health and safety of people in Kentucky through *Prevention, Promotion and Protection* using education, service and innovative partnerships.

Measurements Required:

Height:	Blood Pressure:
Weight:	Glucose Screening*:
Waist Circumference:	Cholesterol Screening*:

* For best results for glucose and cholesterol screenings, fasting 9-12 hours prior to your screening is encouraged. To the extent your health permits, no food should be consumed during this time but we strongly encourage you to drink plenty of water.

MANDATORY DOCUMENTS TO BRING: *(whether visiting the health dept or a work site event)*

1. **Photo Identification** (example – Driver’s License), and **HumanaVitality ID Card** is required in order for the screening to be performed.
2. You will be asked to check-in. When prompted as to the reason for your visit, specify “biometric Screening.” You will **NOT** be required to pay for the noted services. Humana Vitality has agreed to be billed for the noted services provided to you.

****Once Screening is complete, results could take up to 45 days to appear in your Humana Vitality account.**

This voucher only applies to the services and promotional codes listed above. All other Health Department services are to be charged at standard rate.

Visit LivingWell.ky.gov or call 1.877.597.7474 to find the Local Health Department closest to you.
