EXECUTIVE SUMMARY

This Fourteenth Annual Report of the Kentucky Group Health Insurance Board (KGHIB), prepared for the Governor, General Assembly, and Chief Justice of the Supreme Court of the Commonwealth of Kentucky, provides an overview of the 2013 Kentucky Employees' Health Plan (KEHP) cost and service usage, as well as a look at changes in plan performance from prior years. The report also includes a look at the first six months of plan experience in 2014, historical information on plan designs, legislative mandates, and commentary on the KGHIB's focus in a post-federal healthcare reform world.

Highlights of KEHP Experience in 2013

KEHP 2013 costs continue to trend upward, but at a lower rate than the previous year.

- In 2013 KEHP's paid claims cost for medical and pharmacy benefits was nearly \$1.531 billion in total. This is similar to the plan cost in 2012.
- On a per member per month (PMPM) basis, which adjusts for the change in enrollment, KEHP paid claims cost increased 1.3% from 2012 to 2013, this is comprised of a 1.4% increase in medical claims PMPM and a 1.1% increase in pharmacy claims PMPM. The 2013 increases are lower than the increases seen from 2011 to 2012.
- Overall, KEHP's allowed cost trends continued to be lower than industry averages.

KEHP's cost-sharing percentages continue to move toward the national averages. KEHP pays a greater percentage of the cost for employees and a comparable percentage for members in employee plus dependent(s) tiers than national averages.

- The KEHP's average monthly subsidy (or portion of the total cost paid by the plan) for each employee's health insurance coverage has increased, on average, from \$708 per month in 2012 to \$722 in 2013, a 1.9% increase over 2012. The employee's portion of the cost has risen from \$144 in 2012 to \$147 in 2013, a 1.9% increase over 2012.
- Compared to national averages, KEHP pays a comparable percentage of the cost for employees and a lesser percentage for members in employee plus dependent(s) tiers. These subsidy levels continue to move toward the national averages.

KEHP membership dropped from previous year; the portion of members who are children keeps increasing, while the number of employees waiving coverage under KEHP continues to decline.

- Membership in KEHP decreased 1.2% from 2012 to 2013. The percentage of members who cover children has increased from 30.4% in 2012 to 31.3% in 2013, likely due, in part, to healthcare Reform.
- The number of employees who elect to waive coverage continues to decline from 22,607 in 2012 to 21,769 in 2013, likely due, in part, to the erosion of the value of the benefit as inflation increases.

KEHP spends the largest portion of its total claims cost for hospital outpatient care and this service component's cost continues to increase at a higher rate than other service types.

- KEHP's claims distribution across inpatient hospital, outpatient hospital, physician, other medical, and pharmacy goods and services remained relatively consistent from 2012 to 2013.
- KEHP's allowed outpatient PMPM claims, the largest component of cost, increased at a rate of 2.6%. Inpatient allowed PMPM claims increased 1.2%, physician allowed PMPM claims decreased 0.4% and pharmacy allowed PMPM costs increased 1.0%.

Clinical conditions related to heart disease, arthritis, and digestive conditions; continue to be prevalent in KEHP's population.

- A significant portion of plan cost has been attributable to largely the same clinical conditions since 2004.
- Musculoskeletal conditions such as arthritis, circulatory conditions and digestive conditions top the list.
- Members with these three clinical conditions are responsible for 38.5% of the plan's 2013 medical claims cost.
- Given that KEHP provides coverage to a significant percentage of the people of Kentucky, these conditions reflect the health challenges of the overall Commonwealth population.

Pharmacy benefit costs decreased slightly

- Allowed prescription drug charges, defined as total discounted charges less charges for non-covered drugs, decreased by 0.3% from 2012 to 2013, less than the 1.5% increase experienced in 2012.
- Pharmacy utilization dropped from 18.5 scripts per member in 2012 to 18.0 scripts per member in 2013, which represents a 2.4% decrease.

Overview of 2014 KEHP Plans

In 2014, KEHP introduced four new plans: LivingWell CDHP, LivingWell PPO, Standard CDHP, & Standard PPO. The LivingWell Plans are part of KEHP's wellness programs and offer a richer benefit than the Standard plan designs, however the employee is required to complete a health risk assessment and keep their contact information up to date.

The majority of members enrolled in one of the LivingWell plans with the greatest amount of both Active and Early Retirees in the 2014 LivingWell PPO plan. Overall plan cost decreased 12% between the first 6 months of 2013 and the first 6 months of 2014, largely driven by lower utilization and higher member cost sharing.

Benchmark Results

Truven benchmarked several statistics for KEHP's active population. They compared KEHP's 2013 plan performance against employer plan performance of other Truven clients in Public Sector and Private Sector. The data shows that the KEHP's total allowed cost PMPY is 1.7% higher than that of other clients in the public sector and 14.4% higher than that of clients in private sector. In general, KEHP's plans cover a younger population with comparable family size and more females than other Truven client's in the public sector. At younger ages, females have higher average claim costs than males, due to maternity. KEHP members have higher risk scores than members in both the Public and Private Sectors for all age groups. 62% of KEHP members are either healthy or stable; members with chronic conditions had higher admission rates than both the Public and Private Sector for the majority of conditions. KEHP members have higher prescription drugs and outpatient utilization rate than Truven clients in public sector and private sector.

Healthcare Reform

Healthcare Reform was signed into law in March 2010. The first wave of employer-based compliance has passed with many changes having been executed in 2011. Since then, the focus has been on reporting compliance and operational issues such as providing Summary of Benefits and Coverage to participants, defining W-2 reporting of the value of health coverage for members and providing notices of options in the exchange. However, there are many rules and guidance still outstanding on these provisions that are required to move forward.

The Obama Administration announced on July 2, 2013 that the employer mandate under the Patient Protection and Affordable Care Act (Affordable Care Act) will be delayed until 2015, thus giving employers an extra year to comply with the law's complicated hours-tracking and related reporting rules. On July 9, 2013 the Internal Revenue Service (IRS) followed up with a Notice (2013-45) spelling out the specifics of the delay.

The delay means that employers will have an additional year to offer health insurance coverage to their full-time employees before the IRS will assess penalties, known as the employer shared responsibility payment. Employers also will have an additional year to comply with the information reporting provisions that require employers to provide information to the IRS regarding the health insurance coverage offered to their full-time employees. That information will, in part, determine whether those employees are entitled to subsidized health insurance and whether employers are liable for an employer shared responsibility payment. It should be noted that the transition relief does not delay the effective date for other provisions of the Affordable Care Act, such as the requirement that individuals purchase health insurance or pay a penalty.

Board Recommendations

For this year's report, Board members were surveyed and ranked the importance of its Guiding Principles. The Board recommends that the KEHP continue to follow the guiding principles stated below, presented in ranked order importance:

1. Provide uniform coverage across the Commonwealth
2. Encourage wellness and healthy lifestyles
3. Provide preventive care at no cost
4. Strive to hold down costs for family and dependent coverage, while balancing the management of the single subscriber's (plan holder's) premium levels as top priority
5. Improve chronic disease care
6. Educate members about plans that are more appropriate for their health needs
7. Provide members with quality PPO and Consumer Directed options
8. Provide plan alternatives that are accessible for retirees

Based on the results of the prior year survey of Board members, the Board continues to support many of the recommendations made in the Thirteenth Annual Report. These recommendations are listed below.

1. Continuing to explore alternative methods for controlling plan costs of the plans and improving the health of members.
2. Evaluating programs and options for improving the clinical and administrative quality of programs and services.
3. Improving communication to members.
4. Developing a long-term policy for funding strategies to ensure that adequate funds are budgeted each year towards the self-insured plans.
5. Evaluating the impact of federal healthcare reform measures.
6. Increasing focus on wellness initiatives.
7. Improving education of membership about plan options, mechanics of healthcare, and selecting the most appropriate plan option and medical services.

8. Continue to explore making the healthcare system, including cost, more transparent and easier to understand by membership.

INTRODUCTION

In accordance with the provisions of KRS 18A.226(5)(b) enacted by the 2000 General Assembly as a part of Senate Bill 288, this document comprises the Fourteenth Annual Report from the Kentucky Group Health Insurance Board (KGHIB or the Board) to the Governor, the General Assembly, and the Chief Justice of the Supreme Court. The report contains information on the status of the Public Employee Health Insurance Program (PEHI), renamed the Kentucky Employees' Health Plan (KEHP) in 2007.

The report includes:

- A review of the 2013 KEHP experience
- A look at plan experience for the first six months of 2014
- A perspective on sustainability in a post-reform world

The appendix to this report contains the following information:

- A review of the history and development of the KEHP program
- A list of historical Employee Contribution rates
- A summary of legislated health insurance benefit mandates and other mandates passed by recent General Assemblies that affect KEHP
- A glossary of terms
- An index of the exhibits found in this report

Research was jointly conducted by the Department of Employee Insurance (DEI) and Aon Hewitt to prepare this report. The report has been reviewed by the Board and modified to incorporate a full and accurate representation of the Board's findings and recommendations.

Please refer to the *Glossary* at the end of this report for definitions of terms used in the body of the report.

2013 KEHP Experience

This section of the Annual Report provides a summary of cost and usage trends experienced by KEHP in 2013. The 2012-2014 information is based on self-insured KEHP claims reported by the plan administrators. These claims and enrollment data were compiled by the Truven database. Any data from a prior year was taken directly from the Thirteenth Annual Report, as data prior to 2012 was no longer available in the Truven database at the time of this writing.

A Note about 2014 Claims Experience

At the time that this report was written, incurred 2014 claims data was available through June 2014, with three months of run-out (paid through September 2014).

Throughout this report, unless otherwise noted, references to "paid claims" mean claims incurred within the specified time frame regardless of when the claims were paid. Furthermore, all references to claims and KEHP subsidies exclude the experience related to the stand-alone Waiver HRA plan, unless otherwise noted. Analyses included in this annual report do not include the financial impacts of third party claims administration or network access fees.

KENTUCKY EMPLOYEES' HEALTH PLAN EXPERIENCE

Summary of KEHP Program Costs

Key Findings

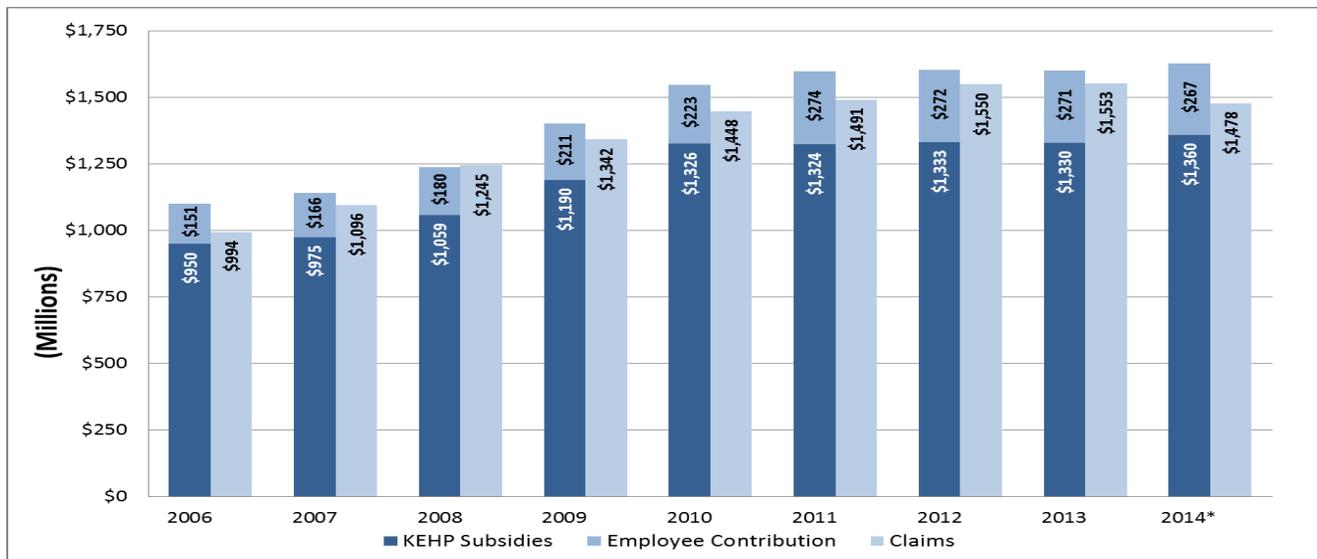

- Over the past several years, KEHP claims and expenses have been fairly close to the budgeted costs.
- KEHP subsidy levels have moved closer to the benchmark norms for both employee and dependent coverage from 2007 to 2014.

Summary of Total Costs

KEHP's total incurred claims, KEHP's subsidy (the amount paid by the plan, excluding the amount paid by the participant), and employee contributions are shown in Exhibit 1 (The total incurred claims paid by KEHP's self-funded program are identified as "Claims"). Administrative fees are not included in these figures. For 2014, only the first 6 months of incurred data was available at the time of the writing of this report.

Exhibit 1 identifies the total subsidy amounts KEHP paid in 2006 through 2013, as well as the first 6 months of 2014 for all members of KEHP, the total annual employee contributions and the aggregate claims costs incurred. The figures included in this exhibit represent millions of dollars.

Exhibit 1 - Aggregate KEHP Paid Claim Costs versus KEHP Subsidies and Employee Contribution (\$Millions)

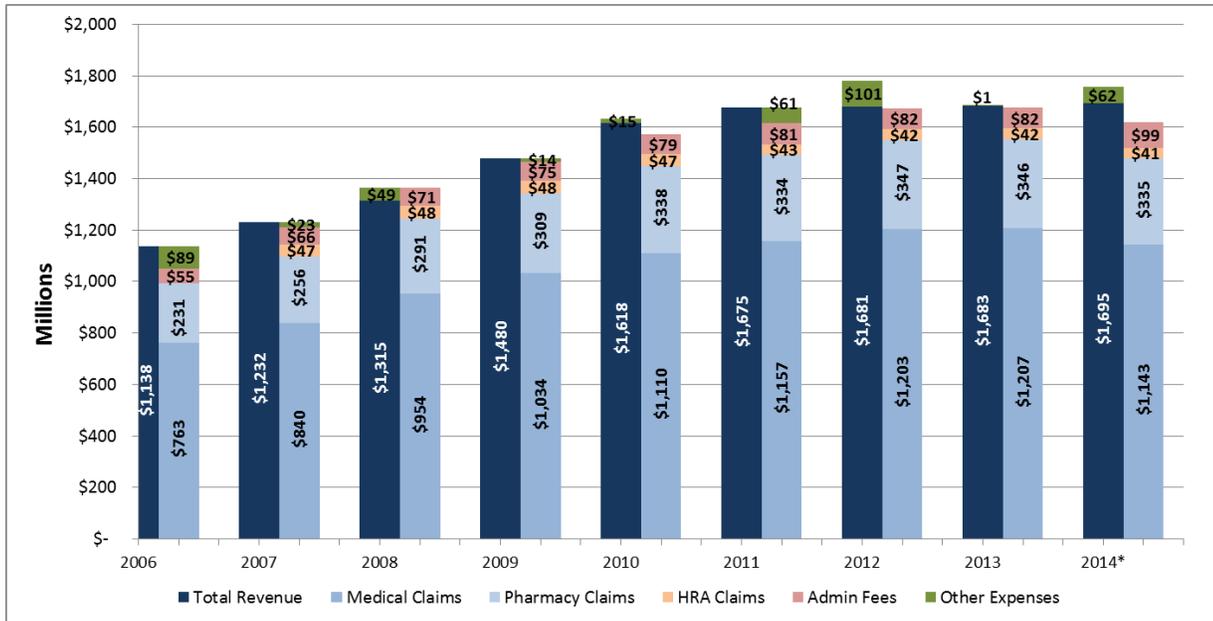

Source: Thirteenth Annual Report, KEHP's claims data aggregated by Truven, Aon Hewitt Projections of Trust Balances
 *2014 claims are based on Aon Hewitt's projections for KEHP

Since KEHP changed the funding from fully insured to self-insured in 2006, claim costs have exceeded the total employee plus employer contributions (premiums) only once, in 2008. A look at the first six months of available data for 2014 shows this trend continuing, though this observation may change as the 2014 plan year progresses.

Year by Year Trust Fund Balances

Exhibit 2 shows the KEHP Plan Year Balances from 2006 to 2014, using Aon Hewitt’s projections incorporating the Trust Fund Report as of September 2014.

Exhibit 2 - Plan Year Balances as of September 30, 2014

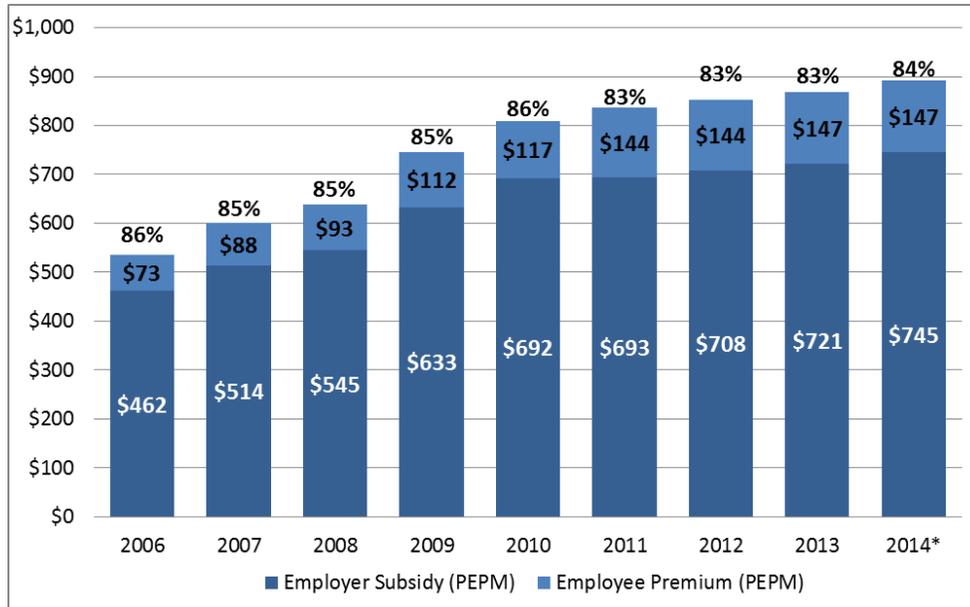

Source: KEHP Trust Cash Transactions from September 2014, Aon Hewitt Projections

With the exception of 2008 and 2012, KEHP has had modest surpluses each year from 2006 on. Note that in 2008, 2010, and 2012 the category ‘Other Expenses’ was negative, as this field includes balance transfers between years. Plan year 2013 is projected to be close to breakeven with the use of ERRP funds. ERRP funds are included in other expenses category.

Historical Per Employee KEHP Subsidies

KEHP’s per employee per month (PEPM) subsidy, Employee PEPM Premium, and KEHP’s subsidy percentage (% of total contributions from KEHP) from 2006 through 2014 are illustrated in Exhibit 3.

Exhibit 3 - Historical KEHP (PEPM) Health Benefit Subsidy Paid For Those Electing Coverage

Source: Thirteenth Annual Report and KEHP's claims and enrollment data aggregated by Truven
 *2014 figures reflect estimates based on six months of 2014 claims experience

The KEHP average monthly subsidy toward the cost of an employee's health insurance coverage has risen from \$462 per month in 2006 to \$721 in 2013 and is projected to increase to \$745 per month for 2014. Above each year's bar is the percentage of KEHP's subsidy. In 2011, the members began to pay a slightly larger percentage of the total premiums, with the KEHP subsidy dropping from 86% in 2010 to approximately 83% afterwards.

KEHP Subsidy Benchmarks

Exhibit 4 compares the KEHP subsidies to national averages for government employers.

Exhibit 4 - KEHP Subsidies Compared to Government Sector Benchmarks

	2010		2011		2012		2013		2014	
	Kaiser	KEHP								
Employee Only	91.0%	95.9%	89.0%	91.7%	88.0%	91.6%	87.0%	91.9%	87.0%	90.3%
Employee + Dependents	75.0%	76.3%	77.0%	75.3%	76.0%	75.2%	76.0%	75.1%	76.0%	77.2%
Overall	82.9%	85.9%	82.8%	83.3%	81.7%	83.1%	81.2%	83.1%	81.2%	83.6%

Source: KEHP's claims data aggregated by Truven, and Benchmarks from Kaiser Family Foundation Employer Health Benefits surveys

In 2014, KEHP is projected to cover 83.6% of total costs (90.3% for single coverage and 77.2% blended for the employee + dependent coverage tiers). The KEHP subsidy for enrollees with single coverage has consistently been higher compared to government sector averages. The subsidy for those with dependent coverage has fluctuated between being above and below the average. The KEHP subsidy level has moved closer to the benchmark norms for both employee and dependent coverage from 2010 to 2014. For example, KEHP's subsidy was 4.9 percentage points higher than the national average for single coverage in 2010, reducing to 3.6 percentage points in 2012. In 2013, the difference widened to 4.9% and in 2014 this difference is expected to be 3.3 percentage points. The subsidy difference for employee plus dependent coverage was 1.3 percentage points higher than the national average in 2010, 0.9 percentage point lower in 2013 and increasing to 1.2 percentage points higher in 2014.

Enrollment / Demographics Analysis

Key Findings

- The number of covered employees dropped slightly in 2013, same for total membership.
- The number of children covered by the plan has grown, though the average age of employees has remained mostly level.
- The number of employees who have waived coverage under KEHP continues to decline.

Key Statistics

Exhibit 5 shows some key demographic statistics for the KEHP population.

Exhibit 5 - Population Demographics—Key Statistics

	KEHP Membership (Actives, Non-Medicare Eligible Retirees and COBRAs Participants)						
	2011	2012	2013	2013 vs. 2012	Jan - Jun, 2013	Jan - Jun, 2014	2014 vs. 2013
Total Enrollment:							
Employees	159,116	156,887	153,603	-2.1%	154,640	152,020	-1.7%
Members	270,422	270,400	267,090	-1.2%	268,158	265,514	-1.0%
Average Age:							
Employees	48.3	48.3	48.3	-0.1%	48.3	48.3	0.1%
Members	38.0	37.4	37.1	-0.8%	37.1	37.1	-0.1%
Demographic Splits:							
Employee Percentage Male	34.4%	34.3%	34.0%	-0.3%	33.9%	34.0%	0.0%
Member to Employee Ratio	1.70	1.72	1.74	1.5%	1.73	1.75	0.7%
% of Covered Members Who Are:							
Adult Male	26.0%	25.5%	25.0%	-0.5%	25.1%	25.3%	0.2%
Adult Female	44.7%	44.1%	43.7%	-0.4%	43.8%	43.5%	-0.3%
Children	29.3%	30.4%	31.3%	0.9%	31.1%	31.2%	0.1%

Source: KEHP's enrollment data aggregated by Truven

Total enrollment for KEHP's plans decreased 1.2% level from 2012 to 2013, the first 6 months of 2014 show a decrease of 1.0% over the prior year. The average member to employee ratio continues to increase slightly from 1.72 in 2012 to 1.74 in 2013. The first 6 months of 2014 show another slight increase, to 1.75. The percentage of children covered by the Plan continues to grow year over year as well.

Enrollment by Plan

Exhibit 6 shows KEHP enrollment by plan option from 2011 through the first six months of 2014.

Exhibit 6a - Employee Enrollment by Plan 2011-2013

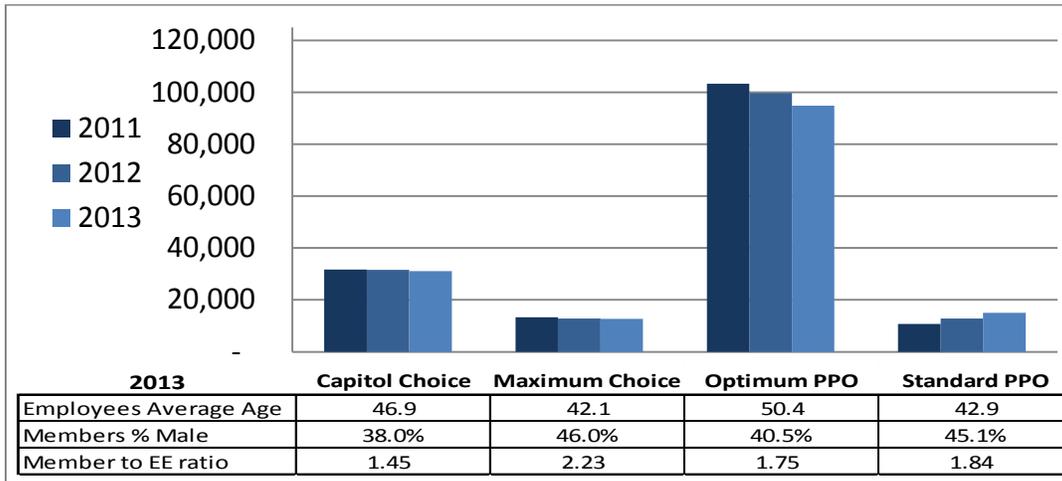

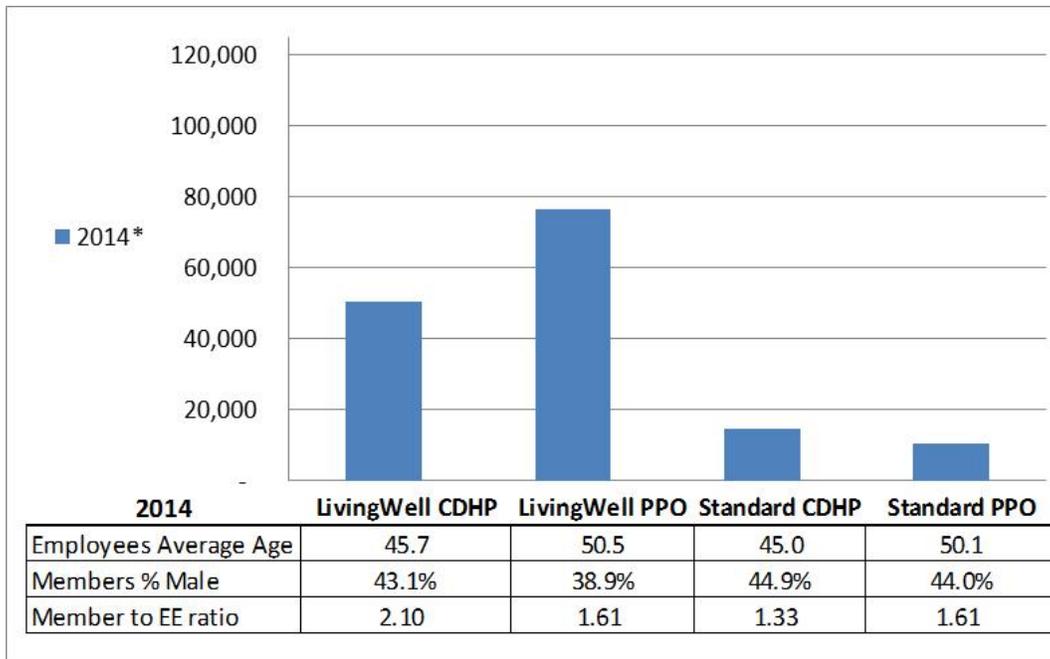

Exhibit 6b - Employee Enrollment by Plan 2014

Source: KEHP's enrollment aggregated by Truven
 *2014 figures include January through June 2014 data only

Other than a small enrollment shift from the Optimum PPO plan to the Standard PPO plan in 2013, the enrollments for the Capitol Choice and Maximum Choice plans remain fairly consistent.

In 2014, over 80% of the employees enrolled in the LivingWell plans and approximately 40% of employees enrolled in the CDHP plans.

2013 Optimum PPO Plan and 2014 LivingWell PPO plan are perceived to be the richest plans, as they offer the lowest deductible and cost-sharing provisions even though they require the highest monthly employee premiums. In reality, the 2013 Maximum Choice Plan and 2014 LivingWell CDHP plan provide the highest level of benefits. Premium adjustments can result in enrollment shifts between plan options.

Exhibit 7 shows the plan compositions by tier.

Exhibit 7a – Employee Enrollment by Coverage Tier and Plan, 2013

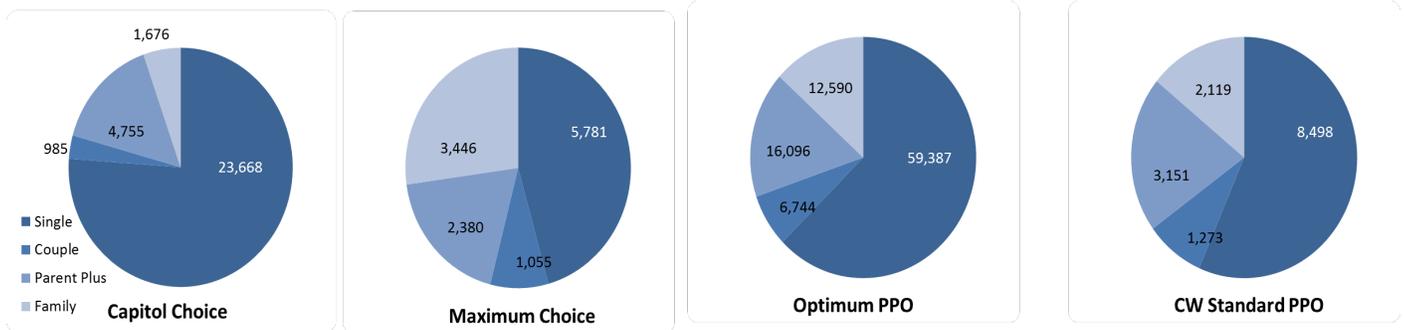

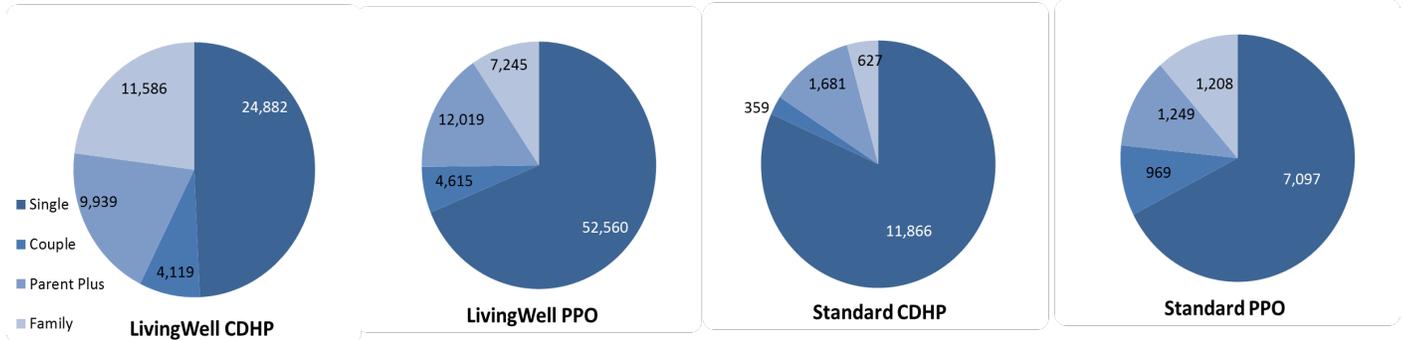

Exhibit 7b – Employee Enrollment by Coverage Tier and Plan, First Half of 2014

Source: KEHP's enrollment data aggregated by Truven

In 2013, singles comprise a larger portion of the Capital Choice Plan than on average, and the same is true of families in the Maximum Choice Plan.

In 2014 singles comprise a larger portion of the Standard CDHP plan than on average, and the same is true of families in the LivingWell CDHP plan.

Group Composition

Exhibit 8 shows some key statistics for KEHP's groups, for 2012 to 2014.

Exhibit 8 - Key Statistics by Group

Group	Number of Employees					2013 Key Statistics			2014 Key Statistics		
	2012	2013	2014 (6 Months)	2014 % of Total	2014 vs. 2013	Employee Ave. Age	Member to EE ratio	Members % Male	Employee Ave. Age	Member to EE ratio	Members % Male
Actives	113,708	112,767	112,562	74.0%	-0.2%	44.7	1.86	41.4%	44.8	1.88	41.6%
School Boards	73,659	73,063	73,212	48.2%	0.2%	44.9	1.89	38.7%	45.0	1.91	39.2%

Total	156,887	153,603	152,020	100.0%	-1.0%	48.3	1.74	41.1%	48.3	1.74	41.2%

Source: KEHP's enrollment data aggregated by Truven

The participating groups' composition changed very little over the last several years, with small increases in the average employee age for nearly every group.

Historical Number of Eligible Individuals Who Waive Enrollment in KEHP

KEHP provides a monthly waiver deposit into a Health Reimbursement Account (HRA) for eligible employees who waive KEHP coverage. These accounts are intended to pay for eligible out-of-pocket healthcare expenses. In 2006 the monthly deposit was \$234 for the months January through June, and then decreased to \$200 for the remainder of 2006; in 2007, the amount decreased to \$175 per month, where it has remained through 2013.

Exhibit 9 shows the annual waiver participation for 2009 through 2014.

Exhibit 9 - 2010 through 2014 Monthly Coverage Waiver Participation

	2010	2011	2012	2013	2014
Average # Employees	24,032	23,561	22,596	21,752	21,981
% Change	N/A	-2.0%	-4.1%	-3.7%	1.1%
HRA Waiver Contributions	\$52,205,724	\$47,847,608	\$47,805,725	\$46,193,376	\$46,160,800
HRA Waiver Claims	\$46,929,658	\$42,545,126	\$42,320,279	\$41,525,601	\$41,345,567
HRA Waiver Claims PEPM	\$162.73	\$150.48	\$156.08	\$159.09	\$156.74
% Change	N/A	-7.5%	3.7%	1.9%	-1.5%

Source: KEHP Trust Fund Summaries, 2014 contributions and claims are projected

With the \$175 waiver per month remaining constant since 2007, the value of the waiver incentive has continued to decline as inflation erodes the incentive purchasing price. The incentive reduction and the rise in healthcare costs were the primary factors resulting in few people waiving coverage. Additionally, KEHP spouses who were provided healthcare coverage through their employers may have seen their situations change and need coverage under the program. These factors may have all contributed to the steady decline in waiver participation, resulting in lower waiver contributions and claim costs.

Medical & Pharmacy Trends

Key Findings

- Allowed cost trends continue to be lower than industry averages.
- Overall, on a PMPM basis, most costs are increasing at low rates. 2014 cost decreased because of plan replacement

Medical and Pharmacy Claims Cost Increases

Exhibit 10 shows some key statistics for medical and pharmacy claims, split between allowed cost and plan cost.

Exhibit 10 - 2010–2014 Claims Experience

	2010	2011	2012	2013	2013 vs. 2012	Jan - Jun, 2013	Jan - Jun, 2014	2014 vs. 2013
Allowed Cost - Medical	\$1,228,602,091	\$1,291,621,070	\$1,334,335,984	\$1,336,110,236	0.1%	\$642,745,142	\$603,780,801	-6.1%

Source: KEHP's claims and enrollment data aggregated by Truven

Overall, the total allowed costs incurred by members of KEHP remained pretty stable from 2012 to 2013 and decreased by 6.7% from 2013 to 2014. KEHP's annual paid claims costs increased by 0.1% from 2012 to 2013 and decreased 13.2% from 2013 to 2014. Since average membership decreased 1.2% from 2012 to 2013, the corresponding per member per month (PMPM) claims costs experienced increased 1.3% from 2012 to 2013. The decrease of 1.0% in membership for the first 6 months of 2013 and 2014 aided in reductions of total costs. Total allowed costs PMPM decreased 5.7% from 2013 to 2014 and the KEHP's portion of the total Medical and Rx claims decreased by 12.3% from 2013 to 2014.

Allowed cost includes the total cost of the service, both plan and employee cost share so the trend for allowed cost represents the true increase of the cost of the services. The plan paid trend is similar to the allowed cost trend from 2012 to 2013, indicating that the plan doesn't carry much extra cost burden from the employees.

KEHP offered four new plans in 2014; plan benefit change resulted in utilization reduction which leads to the decreased allowed cost. New plans increased employee cost share so the paid cost trend showed an even larger decrease than allowed cost.

Pharmacy claims continue to comprise roughly 24% of the total cost of KEHP.

Exhibit 11 contains KEHP’s medical and pharmacy claim trends for 2011 to 2013 as well as the projected claim trends for 2014.

Exhibit 11 – Historical Claims Trends for KEHP

Historical trend	2011	2012	2013	2014*
Plan Paid PMPM - Medical	1.6%	4.2%	1.4%	-12.2%
Plan Paid PMPM - Rx	-2.6%	3.4%	1.1%	-12.5%
Total Plan Paid PMPM	0.6%	4.0%	1.3%	-12.3%

Source: KEHP’s claims and enrollment data aggregated by Truven
 *Trend for 2014 calculated YTD using the first 6 months.

Aon Hewitt used trend survey data to develop a trend expectation for 2014 of 8.5% for KEHP.

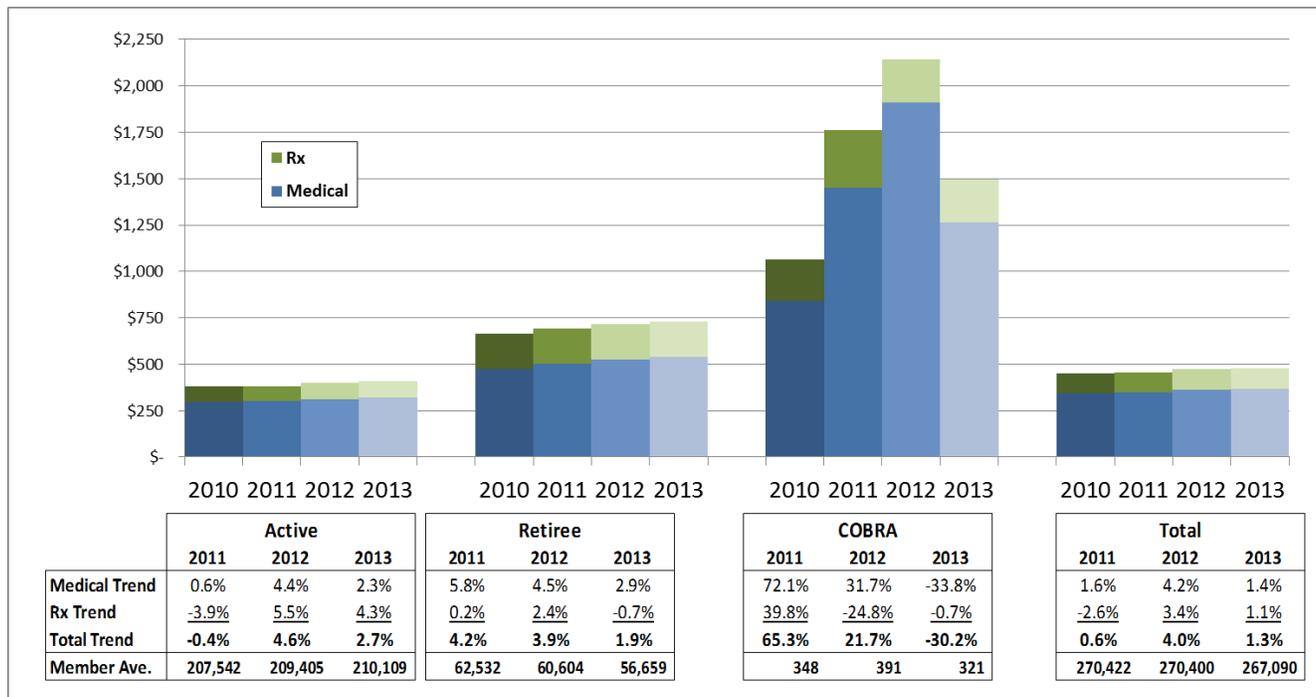

KEHP has chosen to retain grandfathered status in 2013. As PPACA regulations limit the extent to which benefit provisions and employee contributions can change for group health plans to maintain grandfathered status, KEHP only made slight plan design and employee contribution changes in 2013 and absorbed a bigger portion of claims cost increase. For this reason, both pharmacy and medical trend were almost flat in 2013.

KEHP offered four new plan options in 2014 which includes two CDHP plan options. Overall plan cost decreased 12% between the first 6 months of 2013 and the first 6 months of 2014, largely driven by lower utilization and higher member cost sharing.

Claims Payments by Employee Status

As noted in Exhibit 10, combined medical and pharmacy paid claims increased by 1.3% on a PMPM basis from 2012 to 2013. Exhibit 12 provides KEHP’s PMPM costs and trends for both Medical and Pharmacy claims by member status (active employees, non-Medicare eligible retirees, and COBRA participants).

Exhibit 12 - Medical and Pharmacy Paid Claims per Member per Month (PMPM) by Member Status

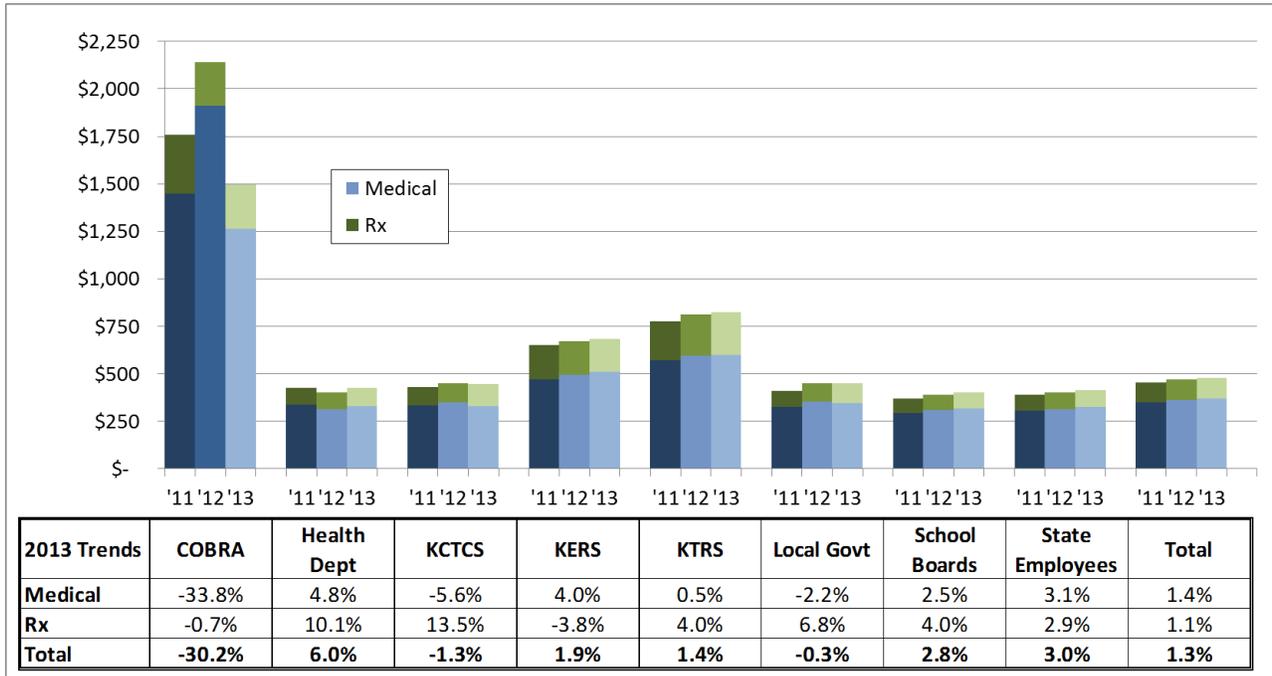

Source: KEHP’s claims and enrollment data aggregated by Truven

Plan paid cost trends are not only impacted by allowed cost trend but also impacted by plan design changes from year to year. The overall active group trend is higher than the other groups mainly because of high pharmacy claims trend. The COBRA participants are, in general, more costly than the members in the other groups, as only those who know they need medical coverage are likely continue coverage. This group shows more volatility over the last several years, especially in 2012, where there was a sharp increase in medical claims. This large increase is likely due to catastrophic claims in the small group, and is not expected to be indicative of future trend.

Exhibit 13 further breaks out the medical and pharmacy costs for KEHP’s groups, again on a PMPM basis.

Exhibit 13 – Medical and Rx Claims PMPM by Employee Group, 2011-2013

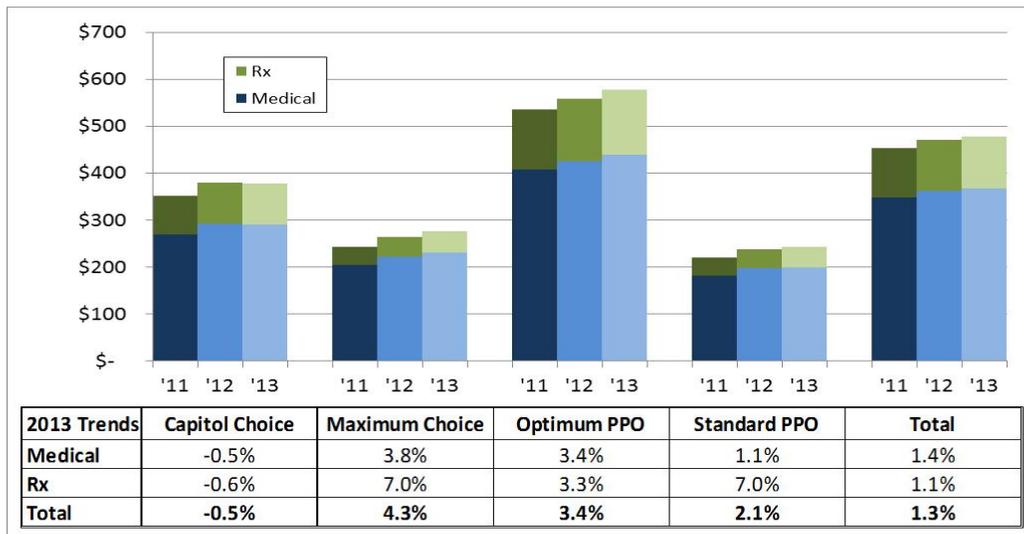

Source: KEHP’s claims and enrollment data aggregated by Truven

Health Department members by far showed the highest cost increase, followed by State Employees and School Board Employees. Aside from the COBRA and Health Department groups, most groups showed fairly modest cost increases in 2013, with some groups experiencing decreases in costs on a PMPM basis.

Exhibit 14 shows the medical and pharmacy costs for KEHP’s four plans, also on a PMPM basis.

Exhibit 14 – Medical and Rx Claims PMPM by Plan, 2011-2013

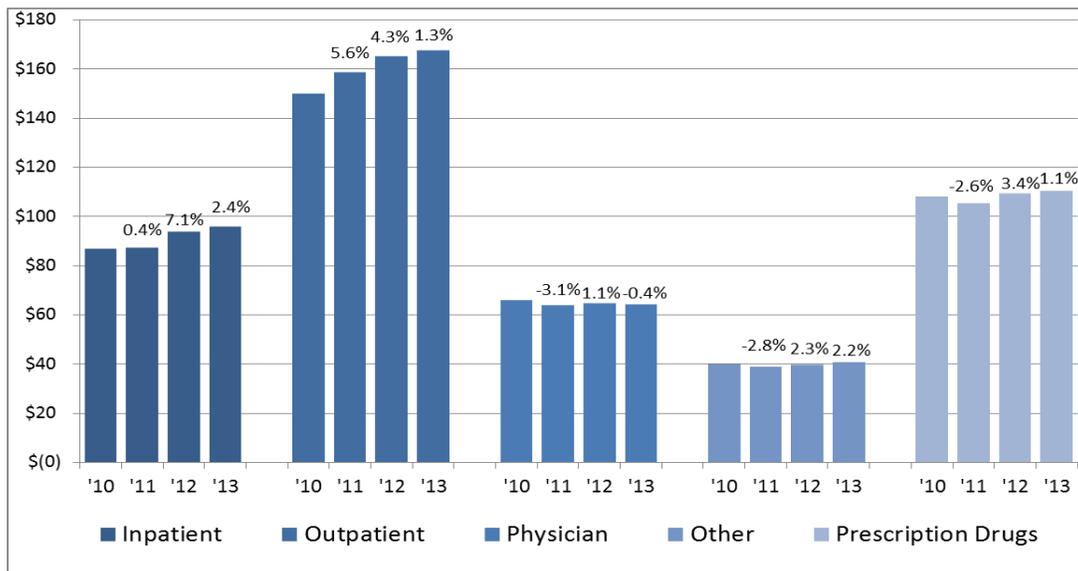

Source: KEHP’s claims and enrollment data aggregated by Truven

The Optimum PPO is the most popular plan and the most costly plan to KEHP. Additionally, the Capitol Choice plan costs increased at a lower rate than most of the other plans, it has a negative trend in from 2012 to 2013.

Trends are influenced by employee migration between plans, with higher cost members migrating from the Optimum PPO to the Standard PPO. Selection plays a large role in these results.

Exhibit 15 shows the increase in cost, on a per member per month basis, for different service types.

Exhibit 15 – Medical and Rx Paid Costs PMPM by Service Type, 2010-2013

Source: KEHP’s claims and enrollment data aggregated by Truven

Facility based costs continue to increase at a slightly higher rate than Physician claims.

Review of KEHP Cost & Utilization

Summary of Medical and Rx

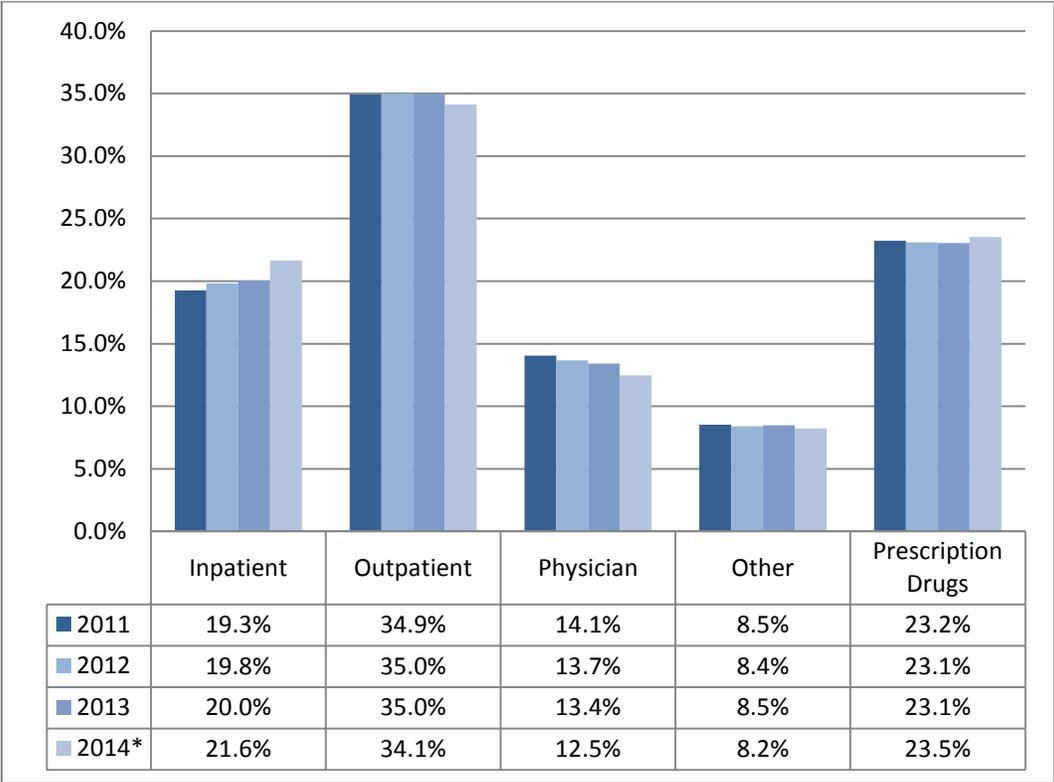

Key Findings

- KEHP’s distribution of claims by service remains fairly consistent, with outpatient claims comprising the largest portion.
- The KEHP paid claim structure has remained stable in recent years. Approximately 23% of claimants account for about 83% of claims costs.
- Utilizations for inpatient, outpatient and professional services all decreased from 2012 to 2014, while the average cost for all service categories increased from 2012 to 2014. This resulted in 0-3% increase in PMPM allowed charge in 2013 and 4-10% decrease in PMPM allowed charge in 2014.
- The top ten Major Diagnostic Categories account for almost 80% of claim costs.

Distribution of Paid Claims by Service Type

Exhibit 16 shows the KEHP paid claims distribution by Service Type for 2011 to 2014.

Exhibit 16 - Paid Claims Distribution by Service Type and Year

Source: KEHP’s claims data aggregated by Truven
 *2014 figures include January through June 2014 data only

KEHP’s distribution of claims by Service Type (Inpatient, Outpatient, Physician, Prescription Drugs, and Other Claims) remains fairly consistent, with Outpatient claims comprising the largest portion (approx. 35%) and contributing to the highest trend.

KEHP Medical Benefits Detailed Experience

Paid Claims by User-Type

The proportion of KEHP’s patients and their costs, separated by User Type, is shown in Exhibit 17.

Exhibit 17 - Paid Claims by User Type

2011	\$0 - \$1,000	\$1,000 - \$5,000	\$5,000 - \$100,000	\$100,000+
Patient %	41.8%	35.3%	22.4%	0.5%
Claim Amount %	3.2%	17.5%	63.6%	15.7%

2012	\$0 - \$1,000	\$1,000 - \$5,000	\$5,000 - \$100,000	\$100,000+
Patient %	42.1%	34.7%	22.7%	0.5%
Claim Amount %	2.7%	15.2%	63.9%	18.2%

2013	\$0 - \$1,000	\$1,000 - \$5,000	\$5,000 - \$100,000	\$100,000+
Patient %	43.6%	33.5%	22.4%	0.5%
Claim Amount %	2.7%	14.5%	64.4%	18.3%

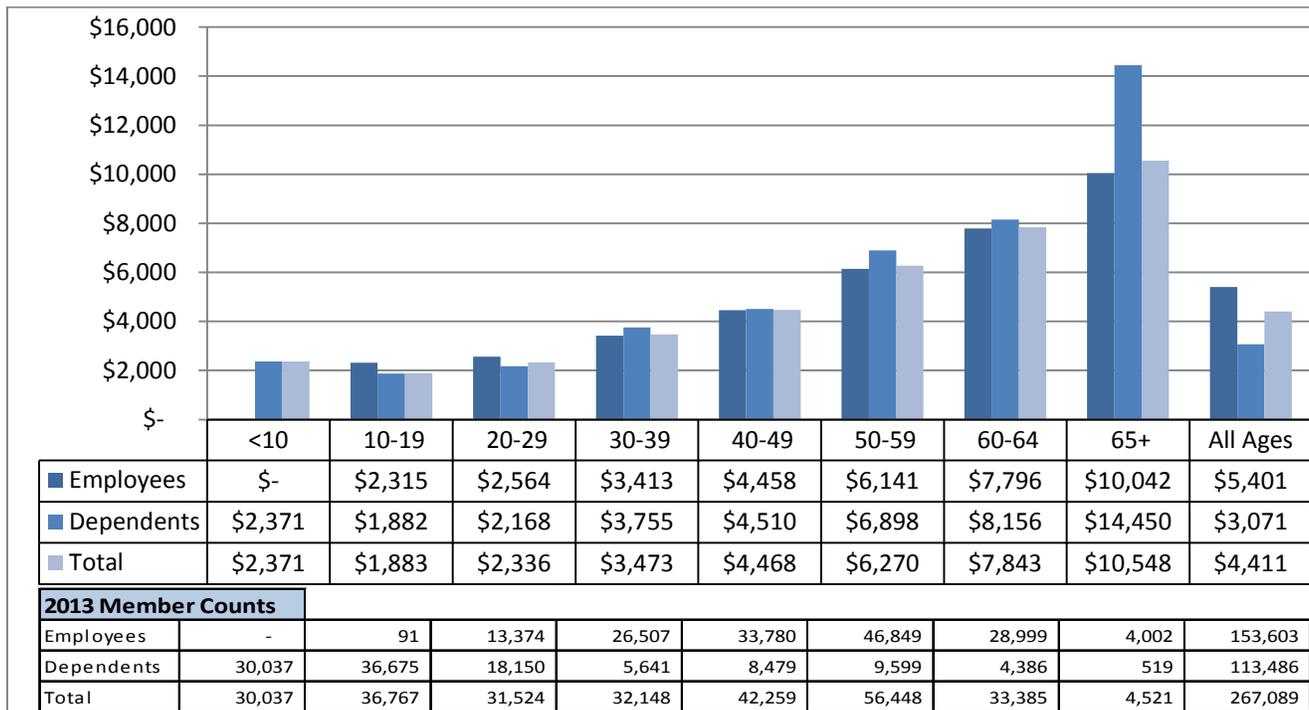

Source: KEHP’s claims and enrollment data aggregated by Truven

The KEHP paid claims distribution in 2013 is very similar to the prior years. Roughly 40% of members had net paid claims of less than \$1,000, whereas 23% of claimants consistently account for over 83% of claims costs.

Paid Claims Cost Detail by Age Band

Exhibit 18 shows KEHP’s 2013 Medical Claims per member per year (PMPY) by age band.

Exhibit 18 – 2013 Employee and Dependent Medical Claims PMPY by Age Band

Source: KEHP’s claims and enrollment data aggregated by Truven

As expected, paid claims per member increases with age. Dependents under age 30 represent 74.8% of total dependents enrolled in the plan but only 51.5% of dependent costs. In comparison, dependents over 50 comprise merely 12.8% of the dependent population, but their costs represent 31.4% of the total dependent paid claims.

Aging typically results in 1-2% higher cost per year of age. In the exhibit above, members over 65 are active employees (or dependents of active employees). The combination of the smaller size and higher demographic risk of this cohort leads to a greater likelihood of fluctuations in per capita costs.

Paid Claims Cost Details by Service Type

Exhibit 19 shows applicable utilization statistics for the Major Medical service types.

Exhibit 19 - Utilization by Service Type on an Allowed Charges Basis

Inpatient Hospital Claim Utilization Statistics	2011	2012	2013	2013 vs. 2012	Jan - Jun, 2013	Jan - Jun, 2014	2014 vs. 2013

Average Cost per Day	\$3,953	\$4,352	\$4,738	8.9%	\$4,530	\$4,660	2.9%
Allowed Charges PMPM	\$105.8	\$112.6	\$114.0	1.2%	\$111.1	\$103.9	-6.5%

Outpatient Hospital Claim Utilization Statistics	2011	2012	2013	2013 vs. 2012	Jan - Jun, 2013	Jan - Jun, 2014	2014 vs. 2013
Visit Per 1,000 Lives	1,876.3	1,879.8	1,836.3	-2.3%	1,764.3	1,577.3	-10.6%
Services Per 1,000 Lives	10,427.8	9,636.5	9,961.8	3.4%	9,443.4	8,269.7	-12.4%
Services Per Visit	5.6	5.1	5.4	5.8%	5.4	5.2	-2.1%
Average Cost per Visit	\$986	\$1,027	\$1,082	5.4%	\$1,077	\$1,154	7.1%
Average Cost per Service	\$177	\$203	\$201	-0.7%	\$201	\$220	9.4%
Allowed Charges PMPM	\$155.4	\$162.9	\$167.2	2.6%	\$158.4	\$151.7	-4.2%

Professional Service Claim Utilization Statistics	2011	2012	2013	2013 vs. 2012	Jan - Jun, 2013	Jan - Jun, 2014	2014 vs. 2013
Visit Per 1,000 Lives	8,378.6	8,268.2	8,057.6	-2.5%	7,936.1	6,993.3	-11.9%
Services Per 1,000 Lives	17,385.5	17,296.6	17,021.1	-1.6%	16,530.3	14,704.8	-11.0%
Services Per Visit	2.1	2.1	2.1	1.0%	2.1	2.1	0.9%
Average Cost per Visit	\$114	\$116	\$118	2.2%	\$117	\$120	2.0%
Average Cost per Service	\$55	\$55	\$56	1.2%	\$56	\$57	1.1%
Allowed Charges PMPM	\$79.9	\$79.9	\$79.6	-0.4%	\$77.5	\$69.7	-10.1%

Source: KEHP's claims and enrollment data aggregated by Truven

2013 utilization decreased for inpatient, outpatient, and professional services from 2012, but average PMPM costs increased at higher rates for inpatient and outpatient service types. This resulted in a 1.2% increase for average inpatient PMPM charges, 2.6% increase for average outpatient PMPM charges and -0.4% trend for average professional PMPM charges. 2014 utilizations decreased at higher rates than average cost increases, resulting in negative trends in all service types.

Overall trend is driven by average cost per service increases and changes in utilization. However, utilization has decreased over the last couple of years, resulting in plan experience being better than anticipated.

Paid Claims Cost by Top Ten Major Diagnostic Categories

Total expenditure and number of patients covered for the top ten Major Diagnostic Categories (MDCs) in 2013 are shown in Exhibit 20. Note that Truven’s categorization of “Health Status”, included in this list is a “catch-all” category e.g., Preventive/Administrative Health Encounters, Signs/Symptoms/Others). Also note that many patients have multiple conditions falling within more than one MDC or clinical condition.

Exhibit 20 - Utilization by Major Diagnostic Categories

Major Diagnostic Category	Total Plan Cost				Patients			
	2012	2013	Jan - Jun, 2013	Jan - Jun, 2014	2012	2013	Jan - Jun, 2013	Jan - Jun, 2014
Musculoskeletal	\$198,023,426	\$204,441,754	\$94,365,364	\$79,970,748	106,182	101,748	70,001	63,403

Top Three as % of Total Spend	38.1%	38.5%	38.0%	38.3%				
Top Ten as % of Total Spend	77.3%	77.6%	77.4%	77.2%				

Source: KEHP’s claims data aggregated by Truven

Nearly 80% of claim costs are for treatment of members whose diagnoses are contained in the top ten Major Diagnostic Categories (MDCs). The relatively high cost of Musculoskeletal, Circulatory, and Digestive MDCs, in particular, suggest that care management and managed pharmacy programs related to these diagnoses should continue to be encouraged. For example, targeted joint replacement, low back pain, heart disease, and reflux disease management programs or pharmaceutical step therapies, with high participation rates, can help manage these costs as well as improve the health of patients who have these diagnoses.

This distribution of claims by MDC is reflective of the average age of the covered population as well as indicative of a population with a significant prevalence of health risks and chronic conditions.

Exhibit 21 - Utilization by Chronic Conditions

Clinical Condition	2012 Plan Cost	2013 Plan Cost	2014 Plan Cost (Jan - Jun)
Cancer	\$79,248,709	\$76,947,285	\$34,186,636
Chronic Back/Neck Pain	\$48,463,854	\$49,719,571	\$17,029,477
Osteoarthritis	\$49,935,163	\$57,077,314	\$23,385,386
Coronary Artery Disease	\$41,003,670	\$34,808,835	\$16,347,536
Diabetes	\$13,874,717	\$14,448,915	\$5,651,827
Hypertension	\$10,825,705	\$10,981,050	\$3,801,384
Weight Management	\$8,105,497	\$13,580,454	\$4,479,251
Heart Failure	\$4,266,523	\$5,744,694	\$2,472,421
COPD	\$3,845,794	\$2,845,051	\$1,371,388
Asthma	\$4,404,937	\$3,515,638	\$1,318,464

Source: KEHP’s claims data aggregated by Truven

Several Chronic Conditions, such as Chronic Back/Neck Pain, Coronary Heart Disease, and Osteoarthritis, each cost KEHP around \$40 to \$50 million in 2012 and 2013. For comparison, all types of cancer combined cost KEHP \$80 million in 2012 and 2013. The costs associated with these ten chronic conditions represent approximately 23% of KEHP’s medical costs. Members with these conditions should be targeted for disease management programs.

Exhibit 22 shows KEHP's medical costs separated by family status.

Exhibit 22 - Paid Claims by Member Type

Relationship	Total Plan Cost					
	2012	2013	2013 vs. 2012	Jan - Jun, 2013	Jan - Jun, 2014	2014 vs. 2013
Employees	\$822,541,482	\$829,548,256	0.9%	\$396,296,975	\$342,040,929	-13.7%
Spouse	\$172,811,583	\$172,858,132	0.0%	\$79,608,831	\$72,211,262	-9.3%
Child	<u>\$180,958,143</u>	<u>\$175,642,448</u>	<u>-2.9%</u>	<u>\$80,589,300</u>	<u>\$69,310,615</u>	<u>-14.0%</u>
Total	\$1,176,311,207	\$1,178,048,836	0.1%	\$556,495,107	\$483,562,805	-13.1%

Relationship	Total Plan Cost PMPM					
	2012	2013	2013 vs. 2012	Jan - Jun, 2013	Jan - Jun, 2014	2014 vs. 2013
Employees	\$436.91	\$450.05	3.0%	\$427.12	\$375.00	-12.2%
Spouse	\$459.37	\$481.47	4.8%	\$439.73	\$391.27	-11.0%
Child	<u>\$183.54</u>	<u>\$175.15</u>	<u>-4.6%</u>	<u>\$161.16</u>	<u>\$139.63</u>	<u>-13.4%</u>
Total	\$362.52	\$367.56	1.4%	\$345.88	\$303.54	-12.2%

Source: KEHP's enrollment and claims data aggregated by Truven

KEHP's total medical cost for adults increased slightly by 0.9% for employees and stays neutral for spouses from 2012 to 2013. Plan costs for children decreased at 2.9%, over the same time period. However, total plan costs are expected to decrease for each member type in 2014. On a PMPM basis, these trends are substantially different. PMPM costs increased moderately from 2012 to 2013: 3.0% for employees, 4.8% for spouses, and decreased 4.6% for children from 2012 to 2013, indicating that the enrollment changes from 2012 to 2013 are mostly responsible for much of the total cost trend difference by member type. In 2014, the PMPM costs are projected to decrease for all groups: 12.2% decrease for employees, 11.0% decrease for spouses, and 13.4% decrease for children, mainly caused by lower utilization.

Exhibit 23 shows KEHP's medical costs separated by Active / Retiree Status.

Exhibit 23 - Paid Claims by Active / Retiree Status

Status	Total Plan Cost					
	2012	2013	2013 vs. 2012	Jan - Jun, 2013	Jan - Jun, 2014	2014 vs. 2013
Active Employees	\$794,313,035	\$810,716,156	2.1%	\$379,979,142	\$331,664,639	-12.7%
Retirees	<u>\$381,998,172</u>	<u>\$367,332,680</u>	<u>-3.8%</u>	<u>\$176,515,965</u>	<u>\$151,898,166</u>	<u>-13.9%</u>
Total	\$1,176,311,207	\$1,178,048,836	0.1%	\$556,495,107	\$483,562,805	-13.1%

Status	Total Plan Cost PMPM					
	2012	2013	2013 vs. 2012	Jan - Jun, 2013	Jan - Jun, 2014	2014 vs. 2013
Active Employees	\$315.51	\$321.05	1.8%	\$299.19	\$261.46	-12.6%
Retirees	<u>\$525.27</u>	<u>\$540.27</u>	<u>2.9%</u>	<u>\$520.83</u>	<u>\$468.03</u>	<u>-10.1%</u>
Total	\$362.52	\$367.56	1.4%	\$345.88	\$303.54	-12.2%

Source: KEHP's enrollment and claims data aggregated by Truven

From 2012 to 2013, active employees experienced a 2.1% increase in total medical claims and retirees experienced a 3.8% decrease. On a PMPM basis, active employees experienced a 1.8% increase and retirees experienced a 2.9% increase. The 2014 trend for actives is projected to be negative, at -12.6% on a PMPM basis, and -10.1% for retirees.

KEHP Pharmacy Benefits Detailed Experience

Key Findings

- Up until 2013, pharmacy costs have increased modestly over the last several years, with trends significantly lower than industry norms. This is likely due, at least in part, to decreased utilization.
- The large decrease in plan paid cost in 2014 was caused by lower utilization and increase in member cost sharing.
- Both the generic dispensing rate and mail order utilization have increased since 2008, helping to slow down the drug cost growth.

Pharmacy Cost Statistics

A summary of year over year trends for KEHP's total pharmacy claims experience is illustrated in Exhibit 24.

Exhibit 24 - Key Statistics - Aggregate Pharmacy Benefits Costs

	2010	2011	2012	2013	2013 vs. 2012	Jan - Jun, 2013	Jan - Jun, 2014	2014 vs. 2013
Total Eligible Members	265,876	270,422	270,400	267,090	-1.2%	268,158	265,514	-1.0%
Total Number of Scripts	5,369,274	5,229,310	4,993,773	4,812,936	-3.6%	2,393,960	2,223,679	-7.1%
Scripts Per Member	20.19	19.34	18.47	18.02	-2.4%	8.93	8.38	-6.2%
Total Plan Paid	\$344,959,438	\$341,781,007	\$353,340,309	\$352,995,351	-0.1%	\$171,814,632	\$148,792,387	-13.4%
Total Member Paid	\$60,122,420	\$76,840,003	\$71,581,170	\$70,731,414	-1.2%	\$37,239,628	\$42,338,268	13.7%
Total Allowed Cost	\$405,081,858	\$418,625,520	\$424,920,942	\$423,832,944	-0.3%	\$209,054,860	\$191,345,709	-8.5%
Plan Paid PMPM	\$108.12	\$105.32	\$108.89	\$110.14	1.1%	\$106.79	\$93.40	-12.5%
Member Paid PMPM	\$18.84	\$23.68	\$22.06	\$22.07	0.0%	\$23.15	\$26.58	14.8%
Total Allowed Cost PMPM	\$126.96	\$129.00	\$130.95	\$132.24	1.0%	\$129.93	\$120.11	-7.6%

Source: KEHP's enrollment and claims data aggregated by Truven

The number of scripts per member has decreased 2.4% in 2013 and is projected to decrease for 2014 as well. The total allowed cost for prescription drugs decreased 0.3% in 2013, and 2014 is projected to see a decrease of 8.5% from the first 6 months of 2013 to the first 6 of 2014.

The observed 2013 trend rate for KEHP's portion of the pharmacy cost in total is 1.1% compared to the overall 2013 trend on pharmacy allowed cost of 1.0%. The increase in employer cost share occurs because member copayments were held constant from 2012 to 2013, leaving the total cost increase to shift to the employer. The observed trend rate for KEHP's portion of the pharmacy cost for the first 6 months of 2014 is -12.5% (on a PMPM basis) with the overall allowed cost trend of -7.6%. This is caused by higher member cost sharing in 2014.

Exhibit 25 shows key utilization and cost share statistics for KEHP’s pharmacy claims.

Exhibit 25 - Key Pharmacy Cost Share Statistics

	2010	2011	2012	2013	2013 vs. 2012	Jan - Jun, 2013	Jan - Jun, 2014	2014 vs. 2013
Member Cost per Claim	\$11.57	\$15.18	\$14.60	\$15.03	3.0%	\$15.88	\$19.53	23.0%
Retail Member Cost per Claim	\$11.17	\$14.77	\$14.24	\$14.73	3.4%	\$15.57	\$18.90	21.4%
Mail Member Cost per Claim	\$25.97	\$29.43	\$27.36	\$26.42	-3.5%	\$27.69	\$42.89	54.9%
Total Member Cost Share	14.8%	18.4%	16.8%	16.7%	-0.2%	17.8%	22.2%	4.3%
Retail Member Cost Share	15.0%	18.7%	17.1%	16.9%	-0.2%	18.0%	22.4%	4.4%
Mail Member Cost Share	12.9%	13.8%	12.9%	13.5%	0.7%	14.0%	18.3%	4.4%
Generic Utilization								
Generic Dispensing Rate	69.7%	73.1%	75.9%	78.3%	2.4%	78.4%	81.5%	3.1%
Generic Substitution Rate	94.2%	94.1%	92.8%	93.5%	0.7%	93.8%	94.3%	0.5%
Mail Order Utilization	2.6%	2.7%	2.7%	2.5%	-0.1%	2.5%	2.6%	0.1%

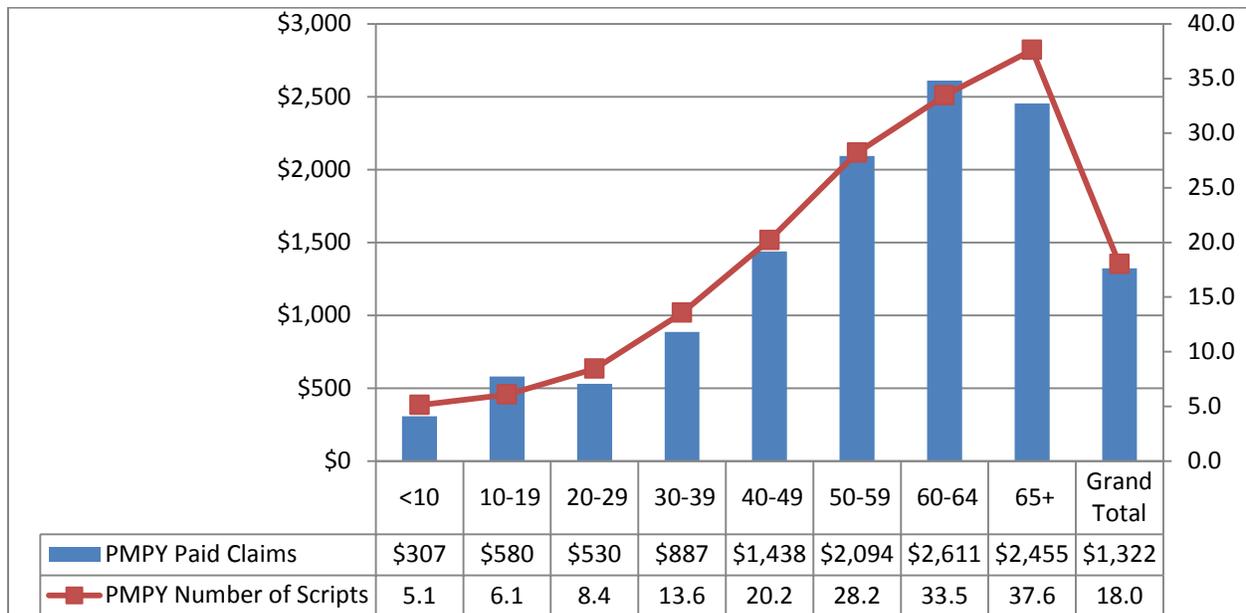

Source: KEHP’s enrollment and claims data aggregated by Truven

The generic dispensing rate has continued to increase steadily from 59.9% in 2007 (not shown) to 78.3% in 2013 and 81.5% in 2014. Mail order utilization has remained fairly level over this same time period due to minimal incentives. Member cost share has remained fairly level after 2011, but shows modest increase in 2014 when plan design changes increased member cost sharing.

Demographic Impact on Pharmacy Experience

Exhibit 26 illustrates the increase in medication usage with each increasing age band.

Exhibit 26 - 2013 Distribution of Pharmacy Claims and Number of Prescriptions, PMPY by Age Band

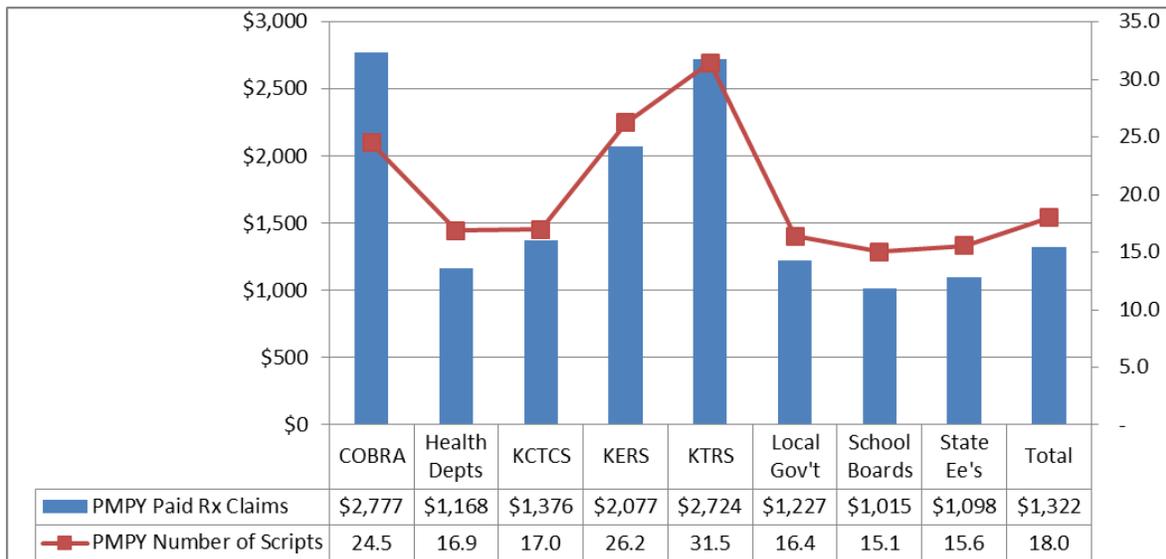

Source: KEHP’s enrollment and claims data aggregated by Truven

Increase in utilization and cost with age is due to the natural progression of the membership’s health status with age. The number of scripts, on a PMPY basis, increases throughout the age bands.

Exhibit 27 shows the pharmacy claim and script PMPMs by group.

Exhibit 27 - 2013 Distribution of Pharmacy Claims and Number of Prescriptions, PMPY by Group

Source: KEHP's enrollment and claims data aggregated by Truven

The highest user group, COBRA, continues to show high utilization as higher users of medical and pharmacy benefits are more likely to continue their coverage through COBRA. After COBRA, KERS and KTRS, the retiree groups, are the highest users of pharmacy benefits due to increased ages. The utilization for other groups are fairly level.

Prescription Drug Utilization and Disease States

Exhibit 28 shows the drugs that KEHP paid most for in 2013, along with their costs and number of scripts for 2010 through the first 6 months of 2014.

Exhibit 28 - Top 10 Drugs for KEHP

Drug	2013 Rank	Total Plan Cost					Number of Scripts				
		2010	2011	2012	2013	Jan - Jun, 2014	2010	2011	2012	2013	Jan - Jun, 2014
NEXIUM	1	\$10,915,333	\$10,294,535	\$10,553,716	\$12,138,888	\$4,870,403	51,894	46,439	44,183	45,290	17,949

Source: KEHP's enrollment and claims data aggregated by Truven

The top drugs utilized year over year correlate to MDC findings and further contribute to the potential for cost and health improvement through coordinated disease management and incentives, such as reduced copays for maintenance drugs prescribed to treat chronic conditions. In 2013 these ten drugs represented 20.3% of the KEHP total pharmacy costs.

Exhibit 29 shows utilization and cost statistics for the top indications that contribute to pharmacy costs in 2013.

Exhibit 29 - Top 10 Indications Contributing to Pharmacy Cost

Top 10 Indications for 2013 January - June by Plan Cost						
Rank	Indication	Scripts	Patients	Plan Cost	Generic Fill Rate	Plan Cost PMPM
1	Diabetes	137,783	20,671	\$ 21,309,270	48.2%	\$ 13.23
2	Inflammatory Conditions	165,595	42,198	\$ 14,995,239	68.8%	\$ 9.31
3	High Blood Cholesterol	318,875	64,212	\$ 12,073,306	92.0%	\$ 7.49
4	Multiple Sclerosis	167,822	42,841	\$ 12,061,237	84.3%	\$ 7.49
5	Ulcer Disease	118,409	34,696	\$ 11,863,795	74.7%	\$ 7.36
6	Depression	6,690	1,898	\$ 11,475,679	20.4%	\$ 7.12
7	Misc Conditions	77,178	26,341	\$ 9,238,353	54.2%	\$ 5.73
8	Cancer	1,290	1,290	\$ 7,857,251	N/A	\$ 4.88
9	Hepatitis	204,801	115,762	\$ 6,842,929	98.5%	\$ 4.25
10	Seizures	67,076	17,231	\$ 6,272,055	89.5%	\$ 3.89
Top Ten Total		1,265,519		\$ 113,989,114		\$ 72.44

Source: Express Scripts Benchmark Report

Plan costs for these top indicators represent about \$114 million in first six months of 2013. For comparison, KEHP's total allowed pharmacy costs were around \$209 million for the same time period. Diabetes is the top indicator, with \$21 million in total ingredient costs and one of the highest plan costs per patient.

Pharmacy Benchmarks

Exhibit 30 compares some of the KEHP's pharmacy cost utilization statistics against public and private benchmarks provided by Express Scripts.

Exhibit 30 – Benchmarked Utilization Statistics

	KEHP					2014 Jan- Jun Benchmarks
	2012	2013	2013 vs. 2012	2013 Jan - Jun	2014 Jan - Jun	State Govt.
Plan Cost PMPM	\$108.89	\$110.14	1.1%	\$106.79	\$93.40	\$75.33
Plan Cost per Script	\$70.76	\$73.34	3.7%	\$71.77	\$66.91	\$57.29
Number Scripts PMPM	1.54	1.50	-2.4%	1.49	1.40	1.31
Generic Fill Rate	75.9%	78.3%	2.4%	78.4%	81.5%	83.1%
Member Cost %	16.8%	16.7%	-0.2%	17.8%	22.2%	20.2%
Specialty Percent of Plan Cost	18.3%	20.0%	1.7%	20.0%	27.7%	31.7%
Specialty Plan Cost PMPM	\$19.56	\$20.92	7.0%	\$19.56	\$20.92	\$23.90

Source: KEHP's enrollment and claims data aggregated by Truven, Express Scripts Benchmark Report

KEHP's per member per month pharmacy costs are substantially higher than the state government benchmark Express. KEHP's generic fill rate improved from 2012 to 2013 but is lower than 2013 ESI benchmark. Specialty drug cost as a percentage of total plan cost increased from 18.3% to 20.0% in 2013 and 27.7% in 2014, due to higher specialty drug cost trend.

Several of KEHP's highly utilized drugs, including several of the top 10 listed in exhibit 28, are scheduled for patent expiration over the next several years, as shown in exhibit 31.

Exhibit 31 - Schedule of Top Prescription Drugs Losing Patent Protection

Year	Drug	Manufacturer	Use	KEHP Cost - 2013
2014	Celebrex	Pfizer	Painkiller	\$ 2,852,535
	Copaxone	Teva Neuroscience	Multiple Sclerosis	\$ 5,170,365
	Evista	Eli Lilly and Company	Osteoporosis	\$ 1,218,648
	Exforge	Novartis	Hypertension	\$ 522,739
	Loestrin 24 Fe	Warner Chilcott	Oral Contraceptive	\$ 469,473
	Nasonex	Merck	Allergy symptoms	\$ 746,961
	Nexium	AstraZeneca	Acid Reflux	\$ 12,138,888
	Restasis	Allergan	Dry eye disease	\$ 1,684,473
	Spiriva	Pfizer	Pneumonia/Bronchitis	\$ 1,591,646
	Trilipix	AbbVie	Cholesterol Lowering	\$ 519,642
	Vivelle-Dot	Novartis	Menopause	\$ 910,436
	Zetia	Merck	Cholesterol Lowering	\$ 2,418,546
2015	Abilify	Otsuka	Antidepressant	\$ 5,519,981
	Androgel	AbbVie	Endogenous testosterone deficiency	\$ 3,395,582
	Gleevec	Novartis	chronic myelogenous leukemia	\$ 2,134,521
	Lovaza	GlaxoSmithKline	high triglycerides	\$ 2,390,278
	Patanol / Pataday	Alcon	allergic conjunctivitis	\$ 582,381
	Prempro	Pfizer	menopause	\$ 675,054
	Welchol	Daiichi Sankyo	hypercholesterolemia & diabetes	\$ 665,213
2016	Benicar	Daiichi Sankyo	hypertension	\$ 663,121
	Byetta	Amylin	Type 2 diabetes	\$ 710,277
	Crestor	AstraZeneca	hypercholesterolemia	\$ 9,510,211
	Focalin XR	Novartis	ADHD	\$ 541,614
	Humira	AbbVie	TNF Inhibitor	\$ 10,121,229
	Nuvigil	Teva	excessive sleepiness	\$ 507,989
	Seroquel XR	AstraZeneca	depression	\$ 937,604
2017	Relpax	Pfizer	Migraine Headaches	\$ 427,949
	Strattera	Lilly	Attention Disorders/ Wt Loss	\$ 775,600
	Treximet	GlaxoSmithKline	Migraine Headaches	\$ 510,170
	Vytorin	Merck	High Blood Cholesterol	\$ 703,446

Source: KEHP claims data aggregated by Truven

These highly utilized drugs in Exhibit 31 represent a significant portion of KEHP's total pharmacy. Together, these drugs account for over \$71 million, or 20.1% of KEHP's total pharmacy cost.

However, it is important to note that, while these drugs represent a significant portion of KEHP's drug spend, they may not necessarily result in significant savings to the plan. Drugs coming off patent may have high cost generic alternatives or new, more expensive therapeutic equivalent brands.

Population Health Issues

Key Findings

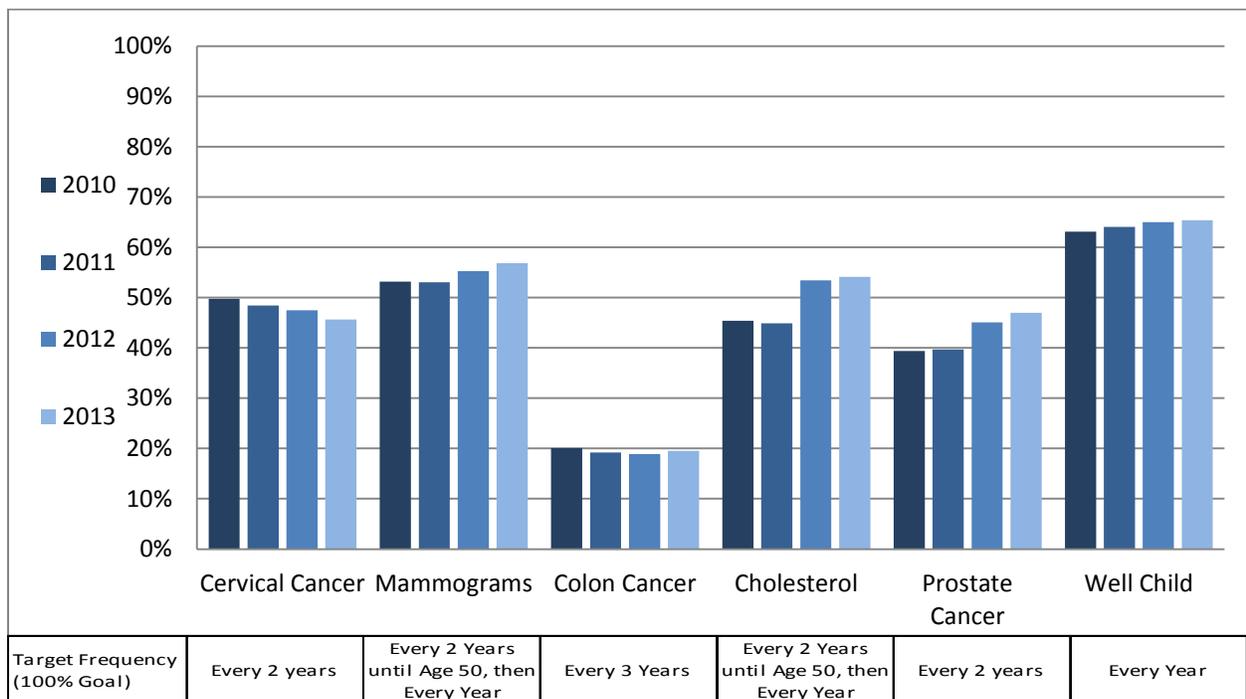

- Members of KEHP are not utilizing preventive care screenings as often as recommended, though there were slight increases in almost all preventive care screenings in 2013 except for Cervical Cancer.
- The Kaiser Family Foundation Survey, as with prior years, shows that Commonwealth of Kentucky residents, as a whole, have less healthy behaviors and outcomes than the United States as a whole, as well as other states in the South Region.

Preventive Care Screenings

"Healthy People 2010" and "Healthy People 2020" are sets of national health objectives for the U.S. to achieve by their respective target years - 2010 and 2020. Created by health experts, these objectives identify a wide range of public health priorities and specific, measurable objectives. These can be used to focus health improvement strategies at the state, community, or organizational level, in order to reach the ultimate goals of increasing the quality and years of healthy life and eliminating health disparities. For each of the preventive screenings, the desired target compliance rate is 100% for the respective target groups and screening frequencies per "Healthy People 2010" and "Healthy People 2020".

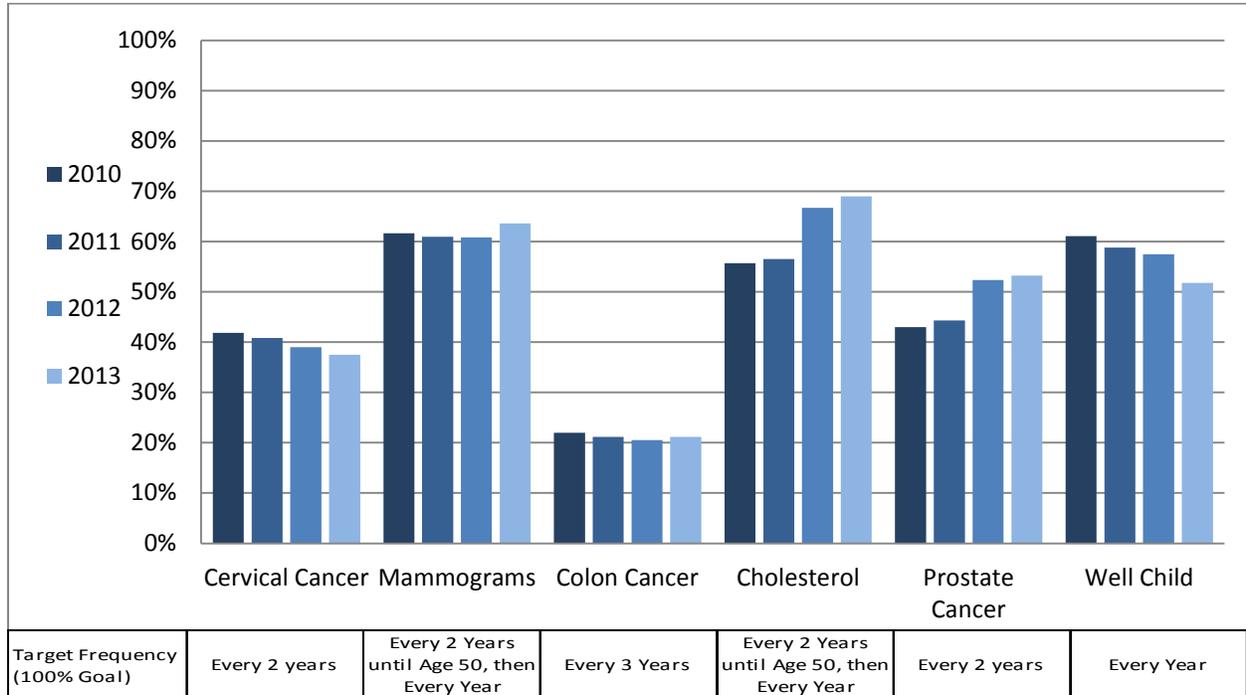

In Exhibits 32 and 33, the preventive care screening rates for KEHP members in 2010-2013 are shown for active members and for non-Medicare eligible retirees, respectively.

Exhibit 32 - Preventive Care Screening Utilization (Actives)

Source: KEHP's enrollment and claims data aggregated by Truven

Exhibit 33 - Preventive Care Screening Utilization (Early Retirees)

Source: KEHP's enrollment and claims data aggregated by Truven

From 2012 to 2013, both the active and Non-Medicare eligible retiree populations have seen decreases in cervical cancer and increases in mammogram, colon cancer screenings, cholesterol and PSA screenings. KEHP's retiree population continues to achieve higher screening rates for all adult preventive measures, with the exception of cervical cancer screens, when compared with actives. Levels for both member groups are well under goals and expectations. Improvements in preventive care screenings are needed in all categories, but especially for colon cancer.

Disease Management and Care Management

ActiveHealth's disease management program was replaced by HumanaHealth Clinical Program in 2013.

Exhibit 34 shows the efforts of KEHP's clinical / case management programs.

Exhibit 34 – ICM Outreach Results (% of KEHP Population)

	2013, Jan - Jun	2014, Jan - Jun	% Difference
ER Visits Per 1000	176	159	-10%
Maternity Cases Managed	1,509	1,728	15%
Nurse Support	9,384	13,363	42%
Behavioral Health Admits Per 1000	419	355	-15%

Source: HumanaHealth's Clinical Program Reports, 2014

The number of managed maternity cases has risen 15% from 1,509 in the first half of 2013 to 1,728 in the first half of 2014. The nurse support has risen 42% from 9,384 in first half of 2013 to 13,363 in first half of 2014. The admits per 1000 members for behavioural decreased 15% and ER visits per 100 decreased 10%. For oncology cases, the disease management program is projected to produce around the same level of savings in 2014 as in 2013. Direct savings for radiation therapy totaled \$1.1 million for the 12 months ending April 2014.

Exhibit 35 shows the extent to which KEHP members have taken care of their health for 2013 and 2014. Note that only 6 months of data is available for 2014 and thus the “percentage of adults receiving their annual wellness exam” metric is artificially low.

Exhibit 35 – ICM Clinical Indicators

Cluster	Clinical Indicator	Measured Population	2013	2014, Jan - Jun
Overall Wellness	Percent of Adults with no gaps in Care	All KEHP Members	45%	44%
Vascular Conditions	Use of Beta-Blockers after heart attack	609	85%	83%
	LDL-Cholesterol Screening after a cardiovascular	3,277	80%	78%
Diabetes	HbA1c Testing Rate	17,581	81%	80%
	Nephropathy Screening Percent	17,822	81%	81%
	Lipid Test Percent	16,163	75%	74%
	Eye Exam Rate	7,237	35%	33%

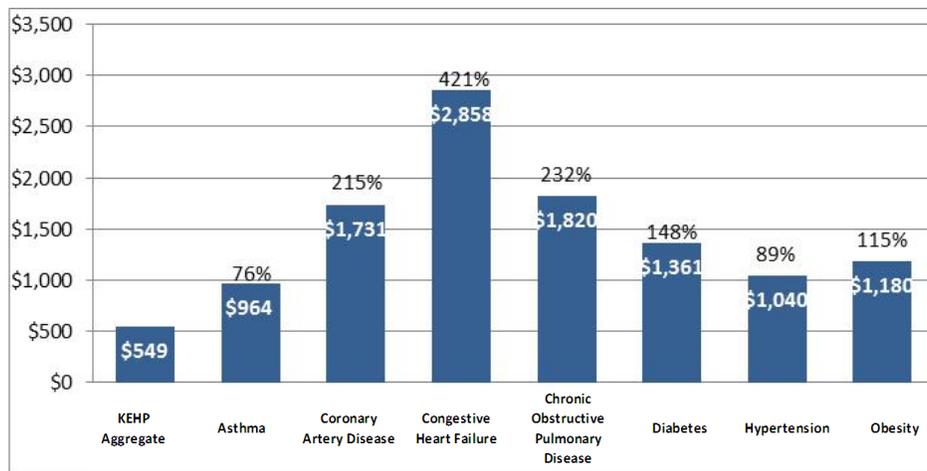

Source: KEHP’s enrollment and claims data aggregated by Truven

2014 percentages are similar to those in 2013; 2014 shows fewer adults with gaps in care than in 2013 and decreases in the percentage of members receiving a LDL-Cholesterol screening after a cardiovascular event. Of particular concern for both years is the very low percentage of KEHP members with diabetes who have received an eye exam.

Costs by Disease State

Exhibit 36 displays the difference in per member per month allowed charges (the cost to both the plan and member combined) between the average KEHP member and those with specified chronic conditions.

Exhibit 36 – 2013 Chronic Disease States PMPM versus KEHP Aggregate PMPM

Source: KEHP’s enrollment and claims data aggregated by Truven

Members with Congestive Heart Failure, for example, are 421% more expensive than the average member. Given the average cost of members within each disease state, there is potential for significant savings through effective management of chronic diseases. Assisting members with accessing appropriate care, discussing concerns with their physicians, maintaining medication compliance, and gaining additional education through the disease management program will significantly improve member health and plan cost.

Population Health Statistics for the Commonwealth of Kentucky

The Kaiser Family Foundation has tabulated, state by state, the prevalence of certain behaviors and indicators that affect the health of individuals. These behaviors and indicators correlate closely to health status. Given that KEHP covers a significant portion of the total Commonwealth population, these behaviors and indicators are also evident in the plan population. A summary of these key statistics for Kentucky (KY), compared against other states in the South Region and the United States in total, is provided below in Exhibit 37 (statistics for which Kentucky is worse than both the South Region and the United States are marked in red).

Exhibit 37 – Comparison of Selected Population Health Statistics

Statistic	KY (Prior Survey)	KY (Current)	South Region	US Total
Life Expectancy at Birth	76.0	76.0	77.7	78.9
Percent of Adults Who are Overweight or Obese	66.6%	66.9%	65.1%	63.4%
Percent of Children (10-17) who are Overweight or Obese	35.7%	35.7%	33.6%	31.3%
Percent of Adults who Participate in Moderate or Vigorous Physical Activities	46.9%	46.9%	48.1%	51.4%
Percent of Adults Who Smoke	29.0%	28.3%	21.7%	18.8%
Percent of Smokers who Attempt to Quit Smoking	53.8%	54.9%	60.7%	60.5%
Percent of Adults Who Have Ever Been Told by a Doctor that They Have Diabetes	10.8%	10.7%	10.7%	10.2%
Adult Self-Reported Current Asthma Prevalence Percentage	10.4%	10.4%	7.9%	8.6%
Percent of Adults Reporting Poor Mental Health	36.8%	38.5%	34.8%	35.6%
Number of Cancer Deaths (per 100,000)	208	208	178	173
Number of Deaths Due to Diseases of the Heart (per 100,000)	210	210	188	179
Age-Adjusted Invasive Cancer Incidence Rate (per 100,000)	509	509	453	459

Source: Kaiser Family Foundation, www.statehealthfacts.org

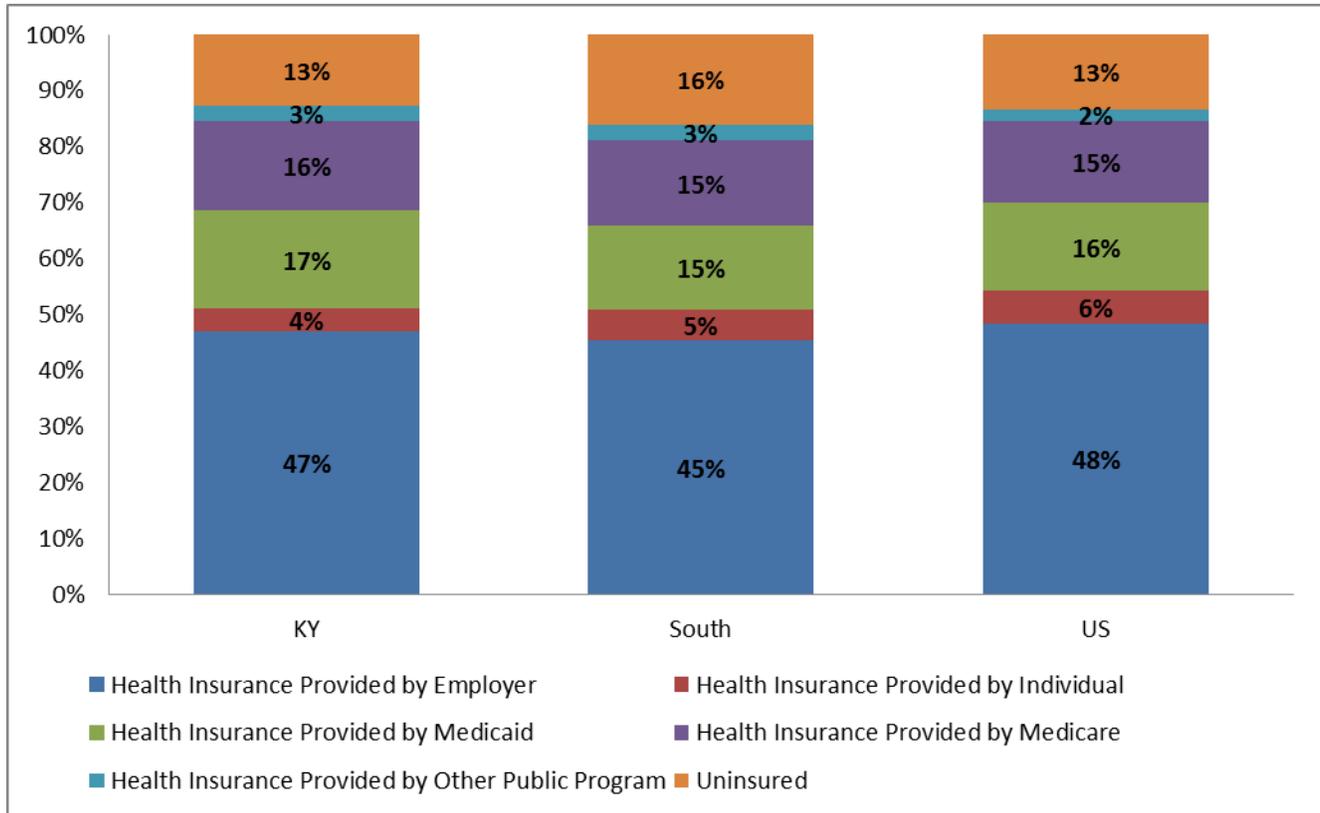

While some of Kentucky's statistics (diabetes and physical activity) are in line with the South Region's average, the population statistics suggest that Kentucky residents, on average, have a less healthy lifestyle than both the South Region and the United States as a whole and can expect both a higher prevalence of health issues and a lower life expectancy. However, the percentage of adults who smoke and the percentage of smokers who have attempted quitting are both considerably better this year than last year.

Consistent with the health issues affecting KEHP members, the Commonwealth still lags behind national averages for metrics such as obesity, diabetes, and smoking. Progress towards reaching and exceeding the national averages will significantly impact the underlying cost of healthcare and demonstrate a significant opportunity and goal for the Commonwealth's population and for KEHP membership. KEHP is focusing on pushing forward with wellness initiatives in attempt to improve KEHP members' health statistics.

Health Insurance Coverage for the Commonwealth of Kentucky

In addition to the Health Risk Statistics Comparison, the Kaiser Family Foundation has aggregated data regarding the health insurance coverage of each state’s residents. In Exhibit 38, Kentucky is again compared against the South Region as well as the United States as a whole.

Exhibit 38 – Source of Insurance Coverage Comparison

Source: Kaiser Family Foundation, www.statehealthfacts.org

In contrast to the disparity in their health risk statistics, the residents of Kentucky are insured in roughly the same proportions as the rest of the United States, with an uninsured rate that’s comparable to the National Average and lower than the other Southern States. The percentage of Kentucky residents insured through Medicare and Medicaid are higher than both the South region and the US in total.

BENCHMARK RESULTS

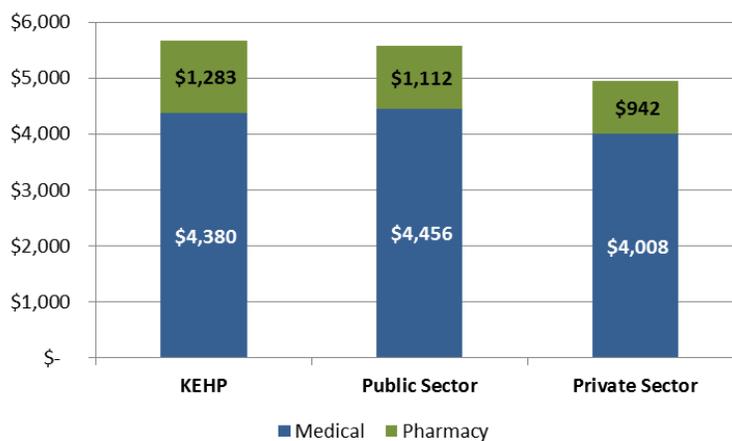

Key Findings

- KEHP’s costs and prevalence of diseases are more similar to the public sector than the private sector.
- Admission rates for KEHP members with chronic conditions are higher than both the Private and Public Sector benchmarks.

Total Allowed Costs

Truven has compiled several benchmarks comparing KEHP’s 2013 allowed costs for active employee population against the active populations for other Truven clients, separated by public and private sectors. Exhibit 39 shows the difference in total costs PMPY for both KEHP and the public and private sectors.

Exhibit 39 –2013 KEHP Active Population PMPY Allowed Costs vs. Public and Private Sector

Source: Truven Benchmark Report

For active employees in 2013, KEHP’s total allowed per member per year cost was 1.7% higher than other clients in the public sector (1.7% lower for medical costs and 15.4% higher for pharmacy) and 14.4% higher than clients in the private sector (9.3% higher for medical costs and 36.2% higher for pharmacy).

Demographics

Exhibit 40 compares some key demographic statistics for the KEHP against the public and private sectors.

Exhibit 40 –2013 Key Demographic Statistics

	KEHP	Public Sector	Private Sector
Average Member Age	33.2	37.2	33.9
Member to Employee Ratio	1.9	1.9	2.2
Employee % male	41%	43%	49%
Risk Score	110.0	94.0	92.0

Source: Truven Benchmark Report

In general, KEHP’s plans cover a younger population with smaller family size and more females than other Truven clients in the public sector. At younger ages, females have higher average claim costs than males, due to

maternity. KEHP’s risk score is substantially higher than clients in the public sector and higher than other clients in the private sector.

Disease Prevalence in KEHP active population

Exhibit 41 compares the prevalence of several chronic diseases for the KEHP active population against other states and US population in general.

Exhibit 41 –2013 Disease Prevalence for Actives

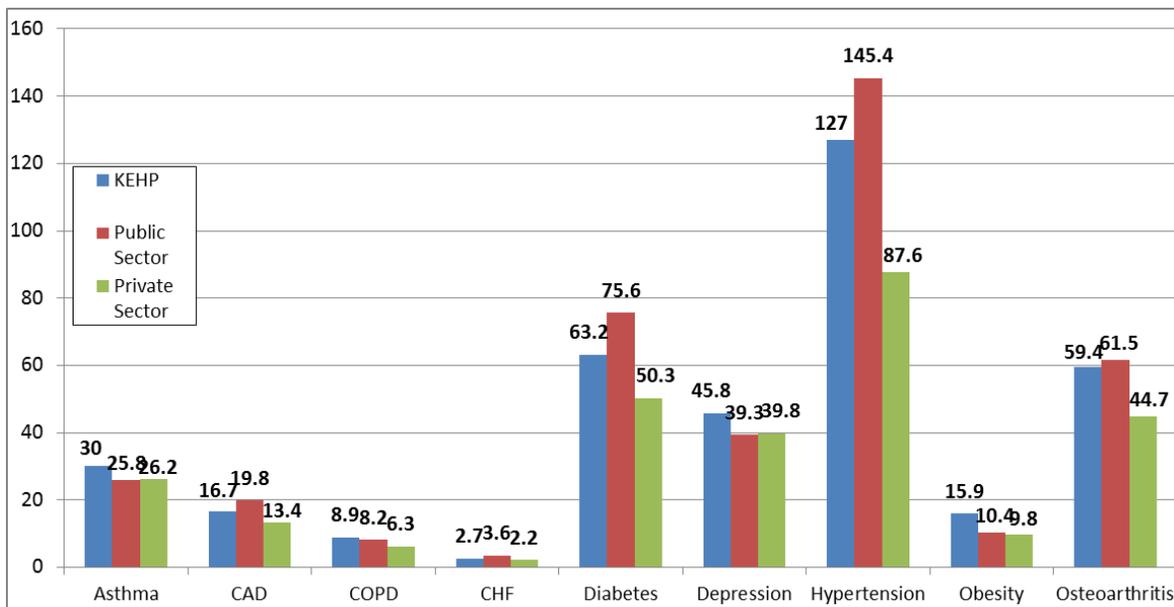

Disease Prevalance % of Patients	KEHP	Benchmark			
		State & Local Govt	Difference	US Total	Difference
Asthma	2.6%	2.2%	0.4%	2.1%	0.4%
Coronary Artery Disorder	2.2%	2.5%	-0.2%	1.8%	0.5%
COPD	1.2%	1.0%	0.2%	0.8%	0.4%
Congestive Heart Failure	0.4%	0.5%	-0.1%	0.3%	0.1%
Diabetes	8.3%	9.3%	-1.0%	6.5%	1.8%
Depression	5.4%	4.4%	0.9%	4.6%	0.8%
Hypertension	17.0%	18.1%	-1.1%	11.5%	5.6%
Low Back Disorder	12.8%	10.8%	2.0%	9.5%	3.4%
Obesity	1.6%	1.0%	0.6%	1.0%	0.6%
Osteoarthritis	7.9%	7.6%	0.3%	5.8%	2.1%

Source: Truven Benchmark Report

KEHP members have higher incidences in all major disease categories than the US benchmarks, lower incidences for Diabetes and hypertension than State and Government benchmark.

Exhibit 42 compares the prevalence of chronic conditions against private and public sector benchmarks.

Exhibit 42 –2013 Chronic Condition Prevalence per 1000 Members

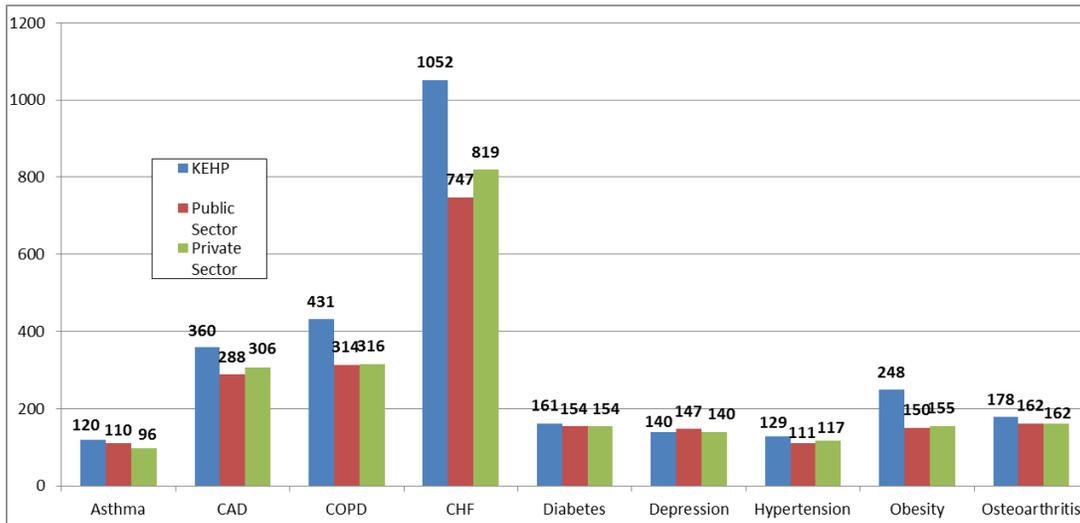

Source: Truven Benchmark Report

KEHP has higher prevalence figures than the private sector in every chronic category, but relatively comparable figures when compared to the public sector.

Exhibit 43 shows select admissions prevalence figures for KEHP against private and public sector benchmarks.

Exhibit 43 – 2013 Admissions per 1000 Members for Members with Chronic Conditions

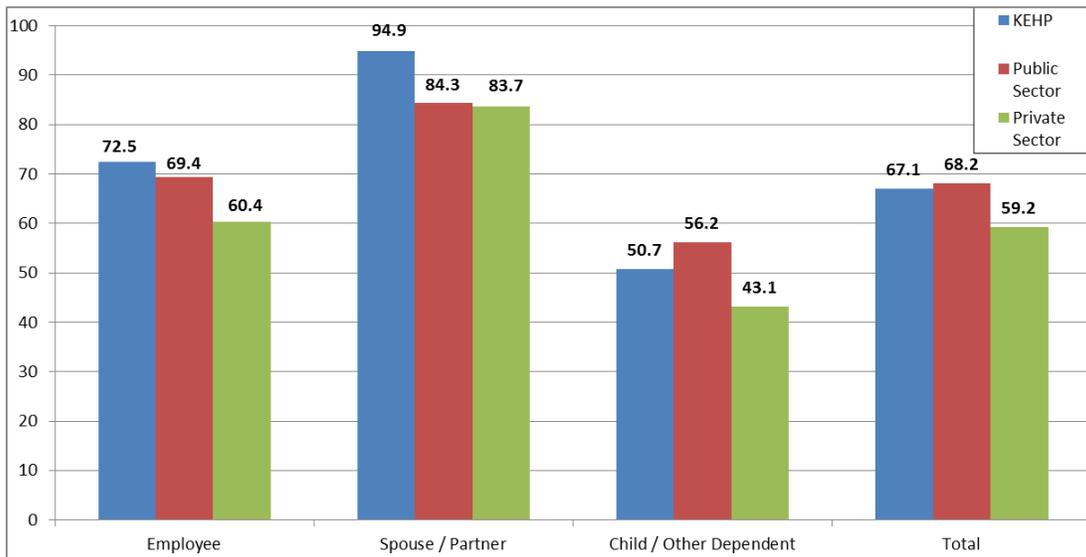

Source: Truven Benchmark Report

KEHP members with chronic conditions show higher admission rates than both private and public sectors.

Exhibit 44 compares the admissions of KEHP against those in the public and private sectors, split by relationship.

Exhibit 44 – 2013 Admissions per 1000 Members

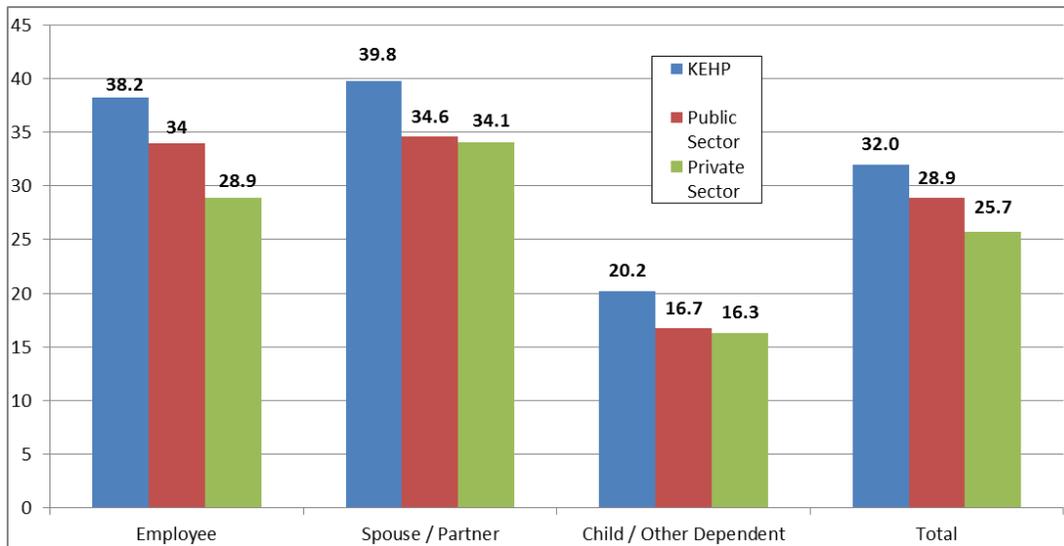

Source: Truven Benchmark Report

Despite the comparable admission rates for those with chronic conditions in exhibit 43, in total the KEHP population has considerable higher admission rates than both the public and private sector for each relationship, except KEHP has lower admission rate for child/other dependent than public sector benchmark.

Exhibit 45 compares the outpatient service rates of KEHP members against those in the public and private sectors, split by relationship.

Exhibit 45 – 2013 KEHP Outpatient Services per Member

Source: Truven Benchmark Report

The KEHP population has considerable higher outpatient services per member than both the public and private sector, for each relationship.

FEDERAL HEALTHCARE REFORM

The Patient Protection and Affordable Care Act (PPACA)

The Patient Protection and Affordable Care Act (PPACA) was signed into law on March 23, 2010, and the related Health Care and Education Reconciliation Act of 2010 (HCER), which modifies certain provisions of PPACA, was signed into law on March 30, 2010. These two statutes made sweeping changes to existing law governing employer-sponsored group health plans, individual health coverage, and governmental health programs. The provisions affect insured and self-insured employer health plans.

The provisions provided by these two statutes generally are added to the Public Health Service Act (PHSA) and are incorporated by reference into the Employee Retirement Income Security Act of 1974, as amended (ERISA). Certain changes are also made to the Internal Revenue Code of 1986, as amended (Code), and the Fair Labor Standards Act (FLSA). Since the law implicates a number of different statutes, various governmental agencies have authority to issue guidance. Much guidance has been released since the law went into effect, with much more still to come. The timeline for reform spans to 2020 with more than 60 major regulatory deadlines that have and continue to be addressed by the Federal government.

The Congressional Budget Office (CBO) originally estimated the cost of PPACA to be \$938 billion. Savings and revenues were projected to provide \$1.08 trillion, for a net reduction to the federal deficit of \$143 billion. Savings and revenues were based on:

- Savings from Medicare Advantage cuts
- Savings from a reduction in the Medicare growth rate
- Savings from the CLASS program (a national Long Term Care program)
- Excise taxes on high cost insurance
- New Medicare taxes on high income individuals
- Penalty payments from Employers not providing coverage for employees
- Penalty payments from Individuals not maintaining minimum coverage for themselves and dependents
- A cap on annual contributions to flexible spending accounts
- Elimination of the Retiree Drug Subsidy tax exclusion
- Fees on insurance companies, pharmaceutical companies and medical devices companies
- Other net savings and net revenues

However, the CLASS program was repealed in October 2011. By law, implementation of this program was contingent on certification by the Secretary of Health and Human Services that the program was financially sound. The secretary, Kathleen Sebelius, reported to congress in October that the program, as designed, was not financially sound. Savings from this program were projected to have been \$70 Billion.

Some Key Provisions of PPACA that Impact KEHP

Changes to Health Plans

PPACA creates unprecedented change in the US healthcare system. It impacts all stakeholders in healthcare, including employers, government, payers, providers and pharmaceutical companies. It will have a significant impact on employers, their health plans, and related administration for years to come. Some provisions were already effective, while some were deferred until 2015, and as late as 2018, with many provisions gradually phased-in. For KEHP, many provisions became effective January 1, 2011.

PPACA changes a number of requirements for group health plans and employers who sponsor or administer these plans:

- Plans must offer coverage for the children of covered individuals until age 26, and may opt to continue to do so through the end of the plan year during which they attain age 26.
- Plans may not place lifetime limits on the dollar value of coverage.
- Beginning in 2014, plans may not impose any annual limits on coverage; prior to 2014, only "reasonable" annual limits, as determined by the Secretary, may be imposed.
- Plans may not have waiting periods longer than 90 days.
- Plans must eliminate pre-existing condition exclusions, effective for children under 19 in 2011; effective for adults in 2014.
- Plans may not rescind coverage except in the case of fraud or intentional misrepresentation.
- Out-of-pocket limits may be no greater than current year's health savings account (HSA) out-of-pocket maximums (\$6,350 individual, \$12,700 family in 2014).
- Employer plans must have an HHS-approved binding external review process.
- Employers will be required to report the aggregate value of health benefits on employees' W-2 Forms beginning with the 2012 tax year.
- Changes to flexible spending accounts (FSAs):
 - The cost of over-the-counter drugs not prescribed by a doctor may not be reimbursed through a stand-alone health reimbursement account (HRA) or health FSA beginning January 1, 2011. KEHP is seeking legal options for stand-alone HRA.
 - Increased penalty for nonqualified HSA or Archer medical savings account (MSA) purchases or distributions increased from 10 to 20 percent, effective for distributions in 2011.
 - The maximum contribution to an FSA will be limited to \$2,500 annually, beginning in 2013.
- Discrimination in insured group health plans based on the employee's salary is prohibited. IRS has delayed the application of this requirement until it issues further regulations.
- Self-insured plans are subject to comparative effectiveness fees and reinsurance fees.
- Plans are required to provide coverage for certain in-network preventive health services, including women's preventive health services, at no cost sharing.
- Employers are required to provide Summary of Benefits and Coverage to participants in writing and free of charge by the first day of coverage, upon renewal or reissuance and upon request.
- Employers are required to provide notice to inform employees of coverage options in Exchange.
- Beginning in 2014, Plans are required to provide benefit coverage for certain routine patient costs for qualified individuals who participate in an approved clinical trial.
- Beginning in 2014, rewards for wellness programs must not exceed 30 percent of the total cost of coverage, except this percentage is increased to 50 percent to the extent that the wellness program is designed to prevent or reduce tobacco use.
- Beginning in 2015, employers are required to provide affordable Minimum Essential Coverage that meets minimum value.
- Beginning in 2015, employers are required to report health insurance information to government and participants.
- Beginning in 2018, a 40 percent excise tax will be imposed on the value of health insurance benefits exceeding a certain threshold.

Mandated Health Insurance Coverage

PPACA requires that most U.S. citizens and legal immigrants have health insurance starting in 2014. This individual mandate provision is enforced by a tax penalty based on income level. Insurance will be offered

through state-based Exchanges to be available in 2014. Families with income up to 400% of the federal poverty level may receive premium tax credits and cost-sharing subsidies for their coverage. PPACA also expands Medicaid eligibility to those with income up to 133% of the federal poverty level.

PPACA imposes penalties on group health plans that do not provide coverage for full-time employees, as well as on plans that have coverage that is inadequate or unaffordable for low-paid employees, beginning in 2014. A full-time employee is defined as an employee working at least 30 hours per week. The penalties vary based on whether or not the employer offers minimum essential coverage and, if so, the employee contribution towards the cost of the coverage compared to the employees' income.

- The penalty for employers who do not offer minimum essential coverage under an eligible employer-sponsored health plan, if at least one full-time employee is enrolled in a qualified health plan under an Exchange and receives a premium tax credit, is \$2,000 times the number of full-time employees, excluding the first 30 full-time employees.
- The penalty for employers who do offer minimum essential health insurance coverage (at least 60% actuarial value), but where at least one full-time employee of the employer has enrolled in an Exchange and qualified for a premium tax credit (where employee income is less than 400% of the federal poverty level and the employee share of the premium exceeds 9.5% of income), is \$3,000 for each such employee, but not more than \$2,000 times the number of full-time employees.
- The penalty amounts will be indexed for inflation.

The Obama Administration announced on July 2, 2013 that the employer mandate will be delayed until 2015, thus giving employers an extra year to comply with the law's complicated hours-tracking and related reporting rules. On July 9, the Internal Revenue Service (IRS) followed up with a Notice (2013-45) spelling out the specifics of the delay.

The delay means that employers will have an additional year to offer health insurance coverage to their full-time employees before the IRS will assess penalties, known as the employer shared responsibility payment. Employers also will have an additional year to comply with the information reporting provisions that require employers to provide information to the IRS regarding the health insurance coverage offered to their full-time employees. That information will, in part, determine whether those employees are entitled to subsidized health insurance and whether employers are liable for an employer shared responsibility payment. It should be noted that the transition relief does not delay the effective date for other provisions of the Affordable Care Act, such as the requirement that individuals purchase health insurance or pay a penalty.

In light of the Individual Mandate, special consideration will need to be made regarding the benefit provided to employees that waive coverage in KEHP. Currently, these employees are provided \$175 per month to cover healthcare expenses via a Health Reimbursement Arrangement (HRA). This benefit does not satisfy the requirements for minimum essential coverage and is likely to result in assessment of one of the employer penalties listed above. Further, this "standalone" HRA does not satisfy the requirements for coverage needed for the employee to meet the Individual Mandate provisions in the law.

State Based Health Insurance Exchanges

Beginning in 2014, state-based Exchanges will be available to U.S. citizens and legal immigrants and employers with up to 100 employees to purchase qualified health insurance coverage. After 2017, states may permit larger employers to purchase coverage through their Exchanges. The Exchange must offer the following four categories of plans providing essential health benefits with out-of-pocket maximums equal to the HSA current law, as well as a catastrophic plan for individuals up to age 30:

- Bronze Plan (the standard for "minimum creditable coverage") covers 60% of the benefit costs

- Silver Plan covers 70% the benefit costs
- Gold Plan covers 80% of benefit costs
- Platinum Plan covers 90% of benefit costs
- Catastrophic Plan (for those up to age 30 or those who are exempt from the Individual mandate provisions of the law) provides catastrophic coverage only, based on current law HSA levels, except that prevention benefits and coverage for three primary care visits would be exempt from the deductible. This plan is not available to employers.

The out-of-pocket limits are reduced for those with incomes up to 400% of the federal poverty level. Premiums in the exchange may not vary by more than 3 to 1 based on age.

Governor Steve Beshear issued an executive order to create a state-based health benefit exchange to best meet the needs of Kentuckians. Kynect is a program run by the Kentucky Office of the Health Benefit Exchange within the Cabinet for Health and Family Services. Kynect, will provide simple, one-stop shopping for individuals and small businesses to purchase health insurance and receive payment assistance or tax credits.

The open enrollment for Kynect began on October 1, 2013, and runs through March 31, 2014, with coverage beginning as soon as January 2014. As of April 21, 2014, 413,410 members enrolled in new health coverage, including Medicaid and private insurance; 330,615 individuals have qualified for Medicaid coverage and 15,427 individuals who qualify for traditional Medicaid have undergone a required annual recertification since April 1, 2014 which is now handled through kynect; 886,502 individuals conducted preliminary screenings to determine qualifications for subsidies, discounts or programs like Medicaid and 52% of all kynect enrollees are under the age of 35.

Early Retiree Reinsurance Program (ERRP)

Congress appropriated \$5 billion for a temporary program to reimburse retiree health plans for certain costs of benefits provided to pre-Medicare eligible retirees and their dependents. PPACA provided that the program be established by June 21, 2010, and end no later than January 1, 2014 (the effective date for the new state insurance exchanges), or when the \$5 billion appropriation has been exhausted.

The objective of ERRP is to reduce the decline in the number of employers providing health coverage to early retirees, and to provide a bridge to Medicare for early retirees until the state-based exchanges are established.

ERRP provides reimbursement to participating employment-based plans for a portion of the cost of providing health coverage to early retirees and their eligible spouse or surviving spouse and dependents. PPACA provides that a participating employment-based plan that meets the requirements of the Act may submit claims for reimbursement based on the amount spent by the plan for the health benefits provided to an early retiree or the spouse, surviving spouse, or dependent of such retiree. The government will reimburse the plan for 80% of the portion of the costs attributable to the early retiree's claims that exceed \$15,000 and are not greater than \$90,000. Payments are not taxable to the plan sponsor.

The ERRP defines an "early retiree" as a plan participant who is age 55 and older who is enrolled for health benefits in a certified employment-based plan, who is not eligible for coverage under Medicare and is not an active employee of an employer maintaining or currently contributing to the plan, or of any employer that has made substantial contributions to fund such plan. Early retiree also includes the spouse, surviving spouse, and dependents of these individuals who are enrolled in the plan, regardless of their age or Medicare eligibility status.

The KEHP application was submitted on the first day that applications were being accepted and was in the first group of 2,000 such approved applications as reported by HHS on September 1, 2010. The regulations state that claims reimbursement requests are processed on a "first-come, first-served" basis in the order received from plan sponsors with accepted applications.

A plan sponsor may not use proceeds under ERRP as general revenue for the sponsor, but must use the proceeds:

- To reduce increases in the sponsor's health benefit premiums or health benefit costs,
- To reduce health benefit premium contributions, copayments, deductibles, coinsurance, or other out-of-pocket costs, or any combination of these costs, for plan participants, or
- Any combination of these.

Plan sponsors who use proceeds from ERRP to reduce their own premiums or costs are required to maintain the level of effort in contributing to support their plans.

The regulations provide that the term "plan participants" for whom costs may be reduced includes all plan participants, including early retirees and active employees, retirees, and their spouses and dependents who participate in the plan. Under the regulations, the plan sponsor may determine how to use the reimbursement; for example, whether to use it to reduce costs immediately or for the next plan year.

The Commonwealth of Kentucky received \$95 million ERRP fund. \$10 million in ERRP funds was transferred to the KEHP trust fund in 2013. All remaining ERRP funds has been transferred to plan year 2014.

"Grandfathered" Health Plans

Under PPACA a group health plan that was in existence on March 23, 2010 and does not change plan designs or employee cost beyond certain limits identified in the regulations can be considered a "Grandfathered Health Plan". Grandfathered status permits the group health plan to be exempted from several of the PPACA requirements for as long as the plan remains grandfathered. KEHP, like most group health plans, has evaluated the advantages and disadvantages of continuing grandfathered status and concluded that grandfathered status should be maintained as long as this is a financially viable option. Because PPACA limits the amounts that a group health plan can change benefits provisions and employee contributions, most plan sponsors anticipate that they will lose grandfathered status in order to remain financially stable.

When grandfathered status is lost due to the changes mentioned above, the health plan will be required to comply with the following provisions of PPACA:

- Coverage of preventive benefits as defined by regulation with no participant cost sharing
- Implementation of the required external appeals process
- Reporting health plan information on plan costs, programs and outcomes to the federal government
- Non-discrimination requirements
- Coverage of adult children to age 26, even if they have other coverage available
- Coverage for individuals participating in approved clinical trials
- Other patient protections

KEHP maintained grandfathered status for 2013.

KEHP will address future PPACA challenges and opportunities according to the following timeline.

2014	2018
<ul style="list-style-type: none"> • Individual Shared Responsibility Payment • State Insurance Exchanges • Employer Responsibility to Provide Affordable Minimum Essential Coverage that meets MV*** (DELAYED) • Preexisting Conditions Exclusions Prohibited* • Annual Dollar Limits on EHB Prohibited* • Automatic Enrollment (DELAYED) • Limit of 90-Day Waiting Period for Coverage* • Employer Reporting of Health Insurance Information to Government and Participants (DELAYED) • Increased Cap on Rewards for Participation in Wellness Program** • OOP Maximum Limits and Rules** • Transitional reinsurance contributions • Coverage in approved clinical trials** • Provider non-discrimination** • Transparency reporting**(DELAYED) • More Taxes (Devices, Insurer, etc.) 	<ul style="list-style-type: none"> • Excise Tax on High-Cost Coverage

*Denotes group/insurance market reforms applicable to all group health plans.

Denotes group/insurance market reforms **not applicable to grandfathered health plans.

*** This requirement applies to Full-Time employees (e.g., 30 hours per week) and will require coverage that is affordable and satisfies a certain actuarial value to avoid the penalty. Guidance forthcoming.

Some Key Considerations

On one level, PPACA does not represent radical change from the existing health system. PPACA still relies on employers, private health plans, and existing public programs to provide the fundamental foundation to health security for Americans. On another level, the rules and economics of that foundation have changed and require a "new look" at employers' benefits, rewards and health strategies. While PPACA reforms are mainly focused on regulation and expansion of coverage, employer-based plans still face the challenges associated with rising health care costs and deteriorating population health. After short term efforts to comply with immediate requirements, employers are recalibrating their longer term strategies based on a new set of underlying dynamics. What has been unthinkable in how employers approach benefits in the past will change in the very near future.

Going forward, employer costs are expected to rise 60% on a "stand still" basis with the following upward pressures:

- Demographics
- Obesity-related chronic illness—including children
- New therapies and technologies
- Cost shift from Medicare / Medicaid
- Industry fee pass-throughs
- New coverage provisions
- Individual mandate

These upward pressures may be mitigated with the following downward pressures:

- Plan design value
- Discretionary purchasing
- Uncompensated care
- Brand drug patent expirations
- Focused care management

- Investments in health

Employers will have to decide whether they want to be involved in aggressive health management or whether they want to provide subsidies to employees to receive coverage on an exchange. Down either path, employers have a persistent need to have a workforce that is healthy, present, and productive. This is imperative for all businesses.

Aggressive Health Management involves:

- Heavy emphasis on health risk improvement and cost management
- Sophisticated use of data analytics to drive design, program management, vendor accountability
- Migration from incentives to penalties and “requirement gates” to access better benefits
- Alignment with pay for performance business culture

Managed Defined Contribution involves:

- Subsidy fixed with company-driven increase
- Coverage via individual market (private or public Exchanges)
- Worksite health shifts to focus on return to work, absence reduction, productivity gains

Many health benefits strategies that employers are executing on today can be accelerated if properly integrated and synergized with broader system reforms. By understanding the broader context of health reform, employers can help to facilitate and ensure that all stakeholders are better aligned and integrated around the universal objective of improved health and better value.

All stakeholders will benefit over the long run if strategies and approaches are integrated, and transformational changes may finally be possible. Some examples are provided below:

- *Wellness* - Current employer efforts can be enhanced with the availability of more universal preventive care, increased incentives as well as the opportunity to integrate with community-wide efforts focused on improving health behaviours.
- *Consumerism* - As health information technology enables more connectivity in the delivery system and provider performance becomes measurable and transparent, real data can better define value in the system and drive better and more informed consumer engagement.
- *Value Based Design* - Over time, a commitment to study the comparative effectiveness of treatments will help to ensure more thoughtful designs and utilize behavioural economics to reward more effective care and discourage care with less value.
- *Integrated Health* - Traditional approaches to disease and case management may be restructured as new approaches to integrated health emerge in the form of Accountable Care Organizations and Patient-Centered Medical Homes.

Continued leadership by employers and plan sponsors will be critical to the long term success of sustainable health system reforms. Collaboration among providers, payors and employers will be key to achieving breakthroughs in health information technology, transparency in value, coordinated care processes and improved prevention and wellness efforts. Without this collaborative approach the critical health system transformation objectives of health reform may not be achievable.

BOARD RECOMMENDATIONS

For this year's report, Board members were surveyed and ranked the importance of their Guiding Principles. The Board recommends that the KEHP continue to follow the guiding principles stated below, presented in ranked order importance:

1. Provide uniform coverage across the Commonwealth
2. Encourage wellness and healthy lifestyles
3. Provide preventive care at little or no cost
4. Strive to hold down costs for family and dependent coverage, while balancing the management of the single subscriber's (planholder's) premium level as top priority
5. Improve chronic disease care
6. Educate members about plans that are more appropriate for their health needs
7. Provide members with quality PPO and Consumer Directed options
8. Provide plan alternatives that are accessible for retirees

Based on the results of the prior year survey of Board members, the Board continues to support many of the recommendations made in the Thirteenth Annual Report. These recommendations are detailed below along with a summary of progress made over the course of this year in furthering objectives.

- KEHP should continue to explore alternative methods for controlling and managing the cost of the plans and improving the health of members. A study of alternative approaches for health improvement (wellness initiatives), prevention of chronic conditions and other critical programs across the spectrum of members' health needs should be evaluated. Approaches that align incentives to encourage members' health behavior changes and providers' improved support for wellness should be evaluated. Resource requirements and potential outcomes of varying approaches should be considered.

DEI implemented Humana Vitality (HV) on January 1, 2012 to provide a robust wellness program. The implementation of HumanaVitality was strategic with a goal in increasing personal health awareness for KEHP members.

The HV program assists members to identify their health/lifestyle risks, set goals/identify activities for improving their risks and earn rewards for meeting goals and engaging in healthy behaviors. The program then provides a customized pathway for each member that will engage them to take action to improve their health, regardless of their risk level. The program is highly data-driven and provides sufficient incentives and options to encourage and continuously stimulate member engagement.

Engagement in HumanaVitality continues to grow and KEHP expects that trend to continue in the future.

DEI continues to evaluate data and information related to the plan's cost, members' use of services, and the clinical conditions prevalent in the population. Challenges and opportunities for improving both the cost to the plan and members and for improving members' health have been evaluated and implemented. Several strategic alternatives, including implementing approaches to improve and integrate disease and care management programs, strategies to increase the use of generic drugs and manage specialty drug use, and the continued expansion of wellness and prevention programs will continue to be evaluated and implemented as opportunities arise.

- KEHP should evaluate programs and options for improving the clinical and administrative quality of programs and services. This study should consider practical steps to evaluate and improve administrative services including claims payment, customer service and others. It should consider programs to measure and improve quality of care currently available in the marketplace.

DEI changed disease management vendors effective January 1, 2013 moving from ActiveHealth Management to HumanaHealth. HumanaHealth is a fully integrated disease management platform. Programs enhancements with implementation of HumanaHealth include behavioral health, onsite case management nurses, metabolic syndrome and diabetes pilot programs, maternity management and weight management.

In 2013, Aon Hewitt performed an operational audit of Humana as well as a full claim review including all Express Scripts claims paid during the 2012 plan year. Both audits revealed overall positive results but some changes and improvements have been made to improve the KEHP's operations and/or contractual arrangement with vendors.

- KEHP should develop a plan to improve communications directly to members and through Insurance Coordinators. The plan should consider different types of communications for different groups of members (internet communications, mailings, other) based on the best potential success with each group.

DEI, with the assistance of the Personnel Cabinet, Center for Strategic Innovation, continues to focus on improved communications with KEHP members. This includes an extensive campaign (in conjunction with HumanaVitality) to promote the new wellness program and encourage engagement and participation. Communications have been e-mailed directly to members and continue to be provided through Insurance Coordinators. In 2013, the Personnel Cabinet and KEHP websites were completely revamped, and a focus on improved communications will continue. Moreover, KEHP implemented webinars and is currently considering social media options.

- Pursuant to KRS 18A.2254(3)(a), there are significant limitations on the use of any of the prior year trust fund surplus balances. Members of the Board noted that KRS 18A.2254(3)(a) has an effect on the level of plan reserves that should be maintained. Board members further discussed that adequate funds should continue to be budgeted by the General Assembly and adequate plan reserves should be maintained by the Trust to address annual healthcare inflation.

The Board acknowledges that adequate reserves are necessary for all self-insured plans. It was requested by Board members that the actuary determine what adequate reserves are needed for self-funded plans similar to the Kentucky Employees' Health Plan bearing in mind the statutory limitations of using prior year surplus balances.

DEI works with Aon Hewitt to develop a funding strategy that will ensure that KEHP obligations will be covered by revenue. The economic downturn has placed budget pressures on all states and benefit plans.

- KEHP should continue to study to evaluate the impact of any federal healthcare reform measures as the scope and detail of reform programs continue to develop and regulations and guidance emerge.

DEI, working with Aon Hewitt, has evaluated the impact of federal healthcare reform law and regulations as information became available. DEI will continue to evaluate the emerging impact of the law as regulations are finalized and market impact information becomes available.

- Increasing focus on wellness initiatives

HumanaVitality was implemented January 1, 2012 as the KEHP's new comprehensive wellness initiative. Humana, HumanaVitality and DEI all have an increased commitment and focus on KEHP wellness

programs and HumanaVitality. Due to the fact that KEHP members are in every city and county of the Commonwealth, a comprehensive and strategic approach to reaching membership is necessary. The Personnel Cabinet, Center for Strategic Innovation, DEI and HumanaVitality meet on a regular basis to review progress, plan and strategize about KEHP wellness. HumanaVitality increased field staff when it became apparent that face-to-face engagement was very effective. Efforts are underway to engage leadership groups, the retirement systems, school districts by having onsite health assessment and screenings events to educate KEHP members about HumanaVitality.

In 2013, engagement in HumanaVitality continues to grow and KEHP expects that trend to continue in the future.

In 2014, KEHP introduced four new plans: LivingWell CDHP, LivingWell PPO, Standard CDHP, & Standard PPO. The LivingWell Plans are part of KEHP's wellness programs and offer a richer benefit than the Standard plan designs, however the employee is required to complete a health risk assessment and keep their contact information up to date.

- Improving education of membership about plan options, mechanics of healthcare, and selecting the most appropriate plan option and medical services.

DEI continues the use of the Benefits Analyzer tool to better educate KEHP members about the plan options and levels of coverage that may be ideal for their personal circumstances. DEI mails Benefits Analyzer letters each year before Open Enrollment process. KEHP Benefits Analyzer is a tool that helps KEHP members select the right health insurance plan based on their specific healthcare needs and finances. The Benefits Analyzer allows KEHP members to review their "real" past claims history and healthcare spending and run those claims through the health plan options offered. The analyzer will help KEHP members consider both "out-of-paycheck" costs and "out-of-pocket" healthcare costs in selecting the plan that might be the best choice for them.

- Continue to explore making the healthcare system, including cost, more transparent and easier to understand by membership.

DEI continues efforts to better educate KEHP membership on consumer driven health plans and of health care and pharmaceutical costs. To that end, DEI provides, through Express Scripts, Inc., each KEHP member a pharmacy benefits statement that includes all the member's prescriptions and the true cost of each medication.

APPENDIX

KEHP Program Changes & Plan Design Provisions by Year

Beginning in 1999, the KEHP program offered two HMO options (A and B), two POS options (A and B) and two PPO options (A and B) through insured arrangements with seven insurance carriers including Advantage Care, Aetna, Anthem, Bluegrass Family Health, CHA Health, Humana, and PacifiCare. In addition, two indemnity plan options were offered to out-of-state retirees through Anthem.

In 2000:

All of these plan options continued to be offered, with the following principle adjustments:

- An EPO option was added to provide KEHP program members with the choice of a plan with a lower employee premium contribution.
- The insurance carrier, Aetna, was no longer offered by the program as an outcome of the 2000 Request for Proposal (RFP) process.
- A feature was added to all plan options that reduced the prescription drug co-payments after a member pays 50 co-payments in a year for themselves or covered family members.
- Coverage of outpatient mental health/chemical dependency services was expanded from:
 - 30 to 45 visits annually for the “A” options, and
 - 21 to 36 visits annually for the “B” options.
- Out-of-state retirees were allowed to enroll in any POS or PPO option offered by any of the Commonwealth’s insurance carriers since no carrier was willing to insure an indemnity plan for those retirees.
- The Commonwealth revised its member subsidy policy to provide for a subsidy that was at least equal to the Single premium rate for the lowest cost Option A in every county.

In 2001:

- The insurance carriers offering health insurance coverage to members of the KEHP program changed as follows:
 - Aetna was re-introduced as a healthcare option for the KEHP program in twenty-eight Kentucky counties.
 - Anthem expanded its PPO service area for members by fourteen counties.
 - Advantage Care ceased to exist.
 - PacifiCare stopped offering health insurance to anyone in Kentucky.
 - Bluegrass Family Health expanded its service area for members by nine counties.

- CHA withdrew its HMO and POS options from twenty-three counties; however, it introduced PPO options in four eastern counties in eastern Kentucky where it previously offered only HMO and POS options.
- Humana discontinued its KPPA HMO for KEHP program members.
- The following changes were made to the benefits offered by the plan:
 - Prescription drug co-payments in the PPO B option were reduced. For generic drugs, the member's co-payment decreased from \$15 to \$10, for brand name drugs from \$20 to \$15, and for non-formulary drugs from \$40 to \$30.
 - The cost for members in the PPO A option for diagnostic tests, performed in a setting other than a physician's office, was changed from a 20% co-insurance after meeting the annual deductible, to a flat \$10 co-payment.
 - Inpatient (per day) and outpatient (per visit) limits on mental health and substance abuse services were eliminated from all the KEHP program's health insurance options, in accordance with House Bill 268 enacted by the 2000 General Assembly.
 - Benefit coverage for amino acid preparations and low-protein modified food products was added to all of the KEHP program's plan options pursuant to House Bill 202 enacted by the 2000 General Assembly.

In 2002:

- In response to requests from Legislators and members of the Commonwealth's KEHP program, the Commonwealth adopted two new requirements that must be met before a prospective health plan (bidding as part of the RFP process) could be offered to members of the KEHP program in a particular county. Before it can be offered in a county, a health plan must:
 - Include at least one hospital in that county in its network, provided one or more hospitals exist in the county and any other bidder includes at least one of those hospitals in its network; and
 - Include at least 25% of the largest number of physicians in any other bidder's network for that county.
- In an effort to lessen the potential impact of adverse selection (i.e., when a person takes the likelihood that they'll need medical care into account when choosing a health plan, often resulting in "more costly" individuals in one option and "less costly" in another), the Commonwealth stipulated that a health plan's B option premium rates must be at least 5% lower, but no more than 10% lower than the A option premium rates for the same plan type (i.e., HMO, POS or PPO) and coverage level (i.e., Single, Parent Plus, Couple or Family).
- The following changes in carrier offerings occurred:
 - As in 2001, Anthem expanded its PPO service area for KEHP program members by fourteen counties.
 - Aetna was discontinued as an offering for KEHP program members in eleven counties.
 - While Bluegrass Family Health's HMO and POS options were newly offered in five counties, these options were discontinued in three counties. Bluegrass Family Health's PPO option was no longer available in one county where it was available in 2001. However, this option was newly introduced in eight countries.

Appendix – KEHP Program Changes and Plan Design Provisions

- CHA's HMO and POS options were discontinued in fourteen counties and newly added in thirteen counties. Its PPO options were added in four counties, but discontinued in the four counties where offered in 2001, due to provider contracting difficulties.
- Humana's HMO and POS options were no longer available in three counties where offered in 2001 and its PPO options were discontinued in ten counties.

2002 Public Employee Health Insurance Program Benefit Provisions

HMO Plans		Option A	Option B
Annual Deductible		None	None
Maximum out-of-pocket for Covered Expenses	Co-insurance amounts for dental, vision, audiometric, and autism respite services do not apply to the out-of-pocket limits. Co-payments for prescription drugs do not apply to the out-of-pocket limits. All other co-payments and co-insurance amounts do apply.	Single: \$1,000 Family: \$2,000	Single: \$1,500 Family: \$3,000
Lifetime Maximum Benefit		Unlimited	Unlimited
In Hospital Care	Provider services, inpatient care, semi-private room, transplant coverage (kidney, cornea, bone marrow, heart, liver, lung, heart/lung, and pancreas), mental health and chemical dependency services. (Co-pays are per admission.)	\$100 co-pay	\$250 co-pay
Outpatient Services	Physician or Mental Health Provider Office (per visit)—visit, diagnostic and allergy testing, allergy serum and injections, diabetes education and therapy, well childcare, immunizations, injections, lab fees, x-rays, and mental health/chemical dependency services. Annual gynecological exam, routine physical, and certain early detection tests (age and periodicity limits may apply). All services performed on the same day (same site) are subject to one co-pay.	\$10 co-pay	\$20 co-pay
	Diagnostic Testing (per visit)—laboratory, x-ray and other radiology/imaging services, ultrasound and approved machine testing services performed for the purpose of diagnosing an illness or injury. All services performed on the same day (same site) are subject to one co-pay. Services received in a physician's office in conjunction with an office visit are only subject to the physician office visit co-pay; a separate diagnostic testing co-pay will not apply.	\$10 co-pay	\$20 co-pay
	Ambulatory Hospital and Outpatient Surgery (per visit)—outpatient surgery services (including biopsies), radiation therapy, renal dialysis, chemotherapy and other outpatient services not listed under diagnostic testing performed in a hospital or other ambulatory center (other than a physician's office).	\$50 co-pay	\$125 co-pay
Emergency Services	Hospital Emergency Room (per visit)—Co-pay is waived if admitted and in-hospital co-pay applies. Emergency physician covered in full.	\$50 co-pay	\$50 co-pay
	Urgent Care Center (not hospital emergency room) (per visit)	\$20 co-pay	\$30 co-pay
	Ambulance (per use)	20% co-insurance	25% co-insurance
Maternity Care	Prenatal, labor, delivery, postpartum care, and one ultrasound per pregnancy. More than one ultrasound per pregnancy is only covered with prior Plan approval. Office visit co-pay only applies to visit in which pregnancy is diagnosed	\$10 co-pay Hospital in-patient co-pay also applies.	\$20 co-pay Hospital in-patient co-pay also applies.
Prescription Drugs	Co-pay applies to each 1-month supply. Preauthorization may be required for certain drugs. Drugs are not available for non-covered services.	\$10 generic \$15 brand \$30 non-formulary	\$10 generic \$15 brand \$30 non-formulary
Dental	Preventive dental only. Limited to two oral exams and two routine cleanings per person, per plan year; one set of bitewing x-rays per person per plan year.	50% co-insurance; \$100 maximum benefit per plan year.	Not covered
Vision	One routine eye exam visit per plan year for persons under 18. One routine eye exam every other year for persons 18 and older.	50% co-insurance; \$75 maximum benefit per plan year.	Not covered
Other Services	Audiometric—Only covered in conjunction with a disease, illness, or injury.	50% co-insurance	Not covered
	Chiropractor (per visit)—No referral is necessary. Limit of 26 visits per year with no more than one visit per day.	\$10 co-pay	\$20 co-pay
	Durable Medical Equipment (DME) and Prosthetic Devices	20% co-insurance	25% co-insurance
	Home Health	20% co-insurance; Limit 60 visits per year.	25% co-insurance; Limit 40 visits per year.
	Hospice—Certain limits apply. Must be pre-certified by Plan.	Covered same as Medicare benefit.	Covered same as Medicare benefit.
	Autism Respite Services—\$500 maximum monthly benefit. For children 2 to 21 years of age for respite and rehabilitative care.	50% co-insurance	50% co-insurance
	Physical Therapy (per visit)—Limit 30 visits per year.	\$10 co-pay	\$20 co-pay
	Occupational Therapy (per visit)—Limit 30 visits per year.	\$10 co-pay	\$20 co-pay
	Cardiac Rehabilitation Therapy (per visit)—Limit 30 visits per year.	\$10 co-pay	\$20 co-pay
	Speech Therapy (per visit)—Limit 30 visits per year.	\$10 co-pay	\$20 co-pay
Skilled Nursing Facility (per admission)—Limit 30 days per year.	\$100 co-pay	\$250 co-pay	

Referrals and/or prior approval may be required for some services. Please contact your Carrier.

	Physical Therapy (per visit)—Limit 20 visits per year.	\$30 co-pay (per visit)
	Occupational Therapy (per visit)—Limit 20 visits per year.	\$30 co-pay (per visit)
	Cardiac Rehabilitation Therapy (per visit)—Limit 20 visits per year.	\$30 co-pay (per visit)
	Speech Therapy (per visit)—Limit 20 visits per year.	\$30 co-pay (per visit)
Skilled Nursing Facility (per admission)—Limit 20 days per year.	\$1,500 co-pay	

In 2003:

- Again, in response to requests from Legislators and members of the KEHP program, the Commonwealth tightened the network requirements applicable to 2003 bids:
 - The 2002 RFP hospital requirement was continued.
 - However, to qualify as an offered health plan in a particular county in 2003, a health plan’s network had to:
 - Include at least 25% of the largest number of primary care physicians in any other bidder’s network bidding for the same plan type (i.e., HMO, POS or PPO) for that county; and
 - Include at least 40% of the largest number of specialist physicians in any other bidder’s network bidding for the same plan type (i.e., HMO, POS or PPO) for that county, provided any bidder has more than five specialists in a county.
- Aetna did not respond to the Commonwealth’s RFP, as it was not willing to continue to provide health insurance to members of the Commonwealth’s KEHP program. This affected eighteen counties and about 8,500 employees/retirees.
- Anthem withdrew from fifty counties, affecting around 15,600 employees and retirees.
- Bluegrass Family Health extended coverage to eight additional counties; however, due to either the Commonwealth’s more stringent network requirements or termination of some providers’ contracts, Bluegrass Family Health wasn’t an option in six counties in 2003 where it was available in 2002.
- While CHA did not extend its service area to include more Commonwealth counties in its 2003 bid, it did extend its HMO and POS options to six additional counties and its PPO option to 46 additional counties. However, it failed to meet the Commonwealth’s 2003 network requirements in two counties where it was available in 2002.
- Humana extended coverage (PPO only) to two additional Western Kentucky counties. However, due to its failure to meet the Commonwealth’s 2003 network requirements, Humana failed to qualify in 2003 as an option in fourteen counties where it had been available in 2002.
- The following changes were made to the benefits offered by the plan:
 - Coverage of dental services was limited to care required as a result of an accidental injury, including anesthesia and hospital services that are medically required to safely provide dental care for children below the age of nine and persons with serious mental or physical conditions.
 - As specified in SB 152, enacted by the 2002 General Assembly, coverage was added for hearing aids and related services for persons under the age of eighteen, up to one hearing aid per impaired ear, up to \$1,400 every 36 months.
 - Coverage limits were revised for low-protein modified foods and medical formulas for individuals with inherited metabolic diseases.
 - Coverage of routine vision care was eliminated.
 - A mail order pharmacy feature was added to allow members to receive a 3-month supply of maintenance prescription drugs for a 2-month co-payment.

- Finally, as enacted by the 2002 General Assembly:
 - Through HB 821, KEHP members were allowed to select coverage in a contiguous county and receive the Commonwealth’s subsidy for that county, if the hospital in the county where member lived and worked did not offer certain services and a hospital in the contiguous county did.
 - Through HB 846:
 - restricted KEHP employees and retirees to one state subsidy for health insurance,
 - required entities participating in the KEHP program to sign a contract with the Personnel Cabinet, and
 - allowed KEHP members to select coverage in a contiguous county and receive the Commonwealth’s subsidy for that county, if the hospital in the county where the member lives and works does not offer certain services and a hospital in the contiguous county does (same provision as HB 821).

Appendix – KEHP Program Changes and Plan Design Provisions

2003 Public Employee Health Insurance Program Benefit Provisions

HMO Plans		Option A	Option B
Annual Deductible		None	None
Maximum out-of-pocket for Covered Expenses	Co-payments for prescription drugs do not apply to the out-of-pocket limits. All other co-payments and co-insurance amounts do apply.	Single: \$1,000 Family: \$2,000	Single: \$1,500 Family: \$3,000
Lifetime Maximum Benefit		Unlimited	Unlimited
In Hospital Care	Provider services, inpatient care, semi-private room, transplant coverage (kidney, cornea, bone marrow, heart, liver, lung, heart/lung, and pancreas), mental health and chemical dependency services. (Co-pays are per admission.)	\$100 co-pay	\$250 co-pay
Outpatient Services	Physician or Mental Health Provider Office (per visit)—visit, diagnostic and allergy testing, allergy serum and injections, diabetes education and therapy, well childcare, immunizations, injections, lab fees, x-rays, and mental health/chemical dependency services. Annual gynecological exam, routine physical, and certain early detection tests (age and periodicity limits may apply). All services performed on the same day (same site) are subject to one co-pay.	\$10 co-pay	\$20 co-pay
	Diagnostic Testing (per visit)—laboratory, x-ray and other radiology/imaging services, ultrasound and approved machine testing services performed for the purpose of diagnosing an illness or injury. All services performed on the same day (same site) are subject to one co-pay. Services received in a physician's office in conjunction with an office visit are only subject to the physician office visit co-pay; a separate diagnostic testing co-pay will not apply.	\$10 co-pay	\$20 co-pay
	Ambulatory Hospital and Outpatient Surgery (per visit)—outpatient surgery services (including biopsies), radiation therapy, renal dialysis, chemotherapy and other outpatient services not listed under diagnostic testing performed in a hospital or other ambulatory center (other than a physician's office).	\$50 co-pay	\$125 co-pay

* Health Departments shall be given the right of first refusal. Note: Only services from network providers are covered. Referrals and/or prior approval may be required for some services. Please contact your Carrier.

In 2004:

- The 2003 RFP hospital requirement was continued; however, the physician network requirements were modified such that the specialist physician network requirement only had to be met in counties where at least one bidder reported ten or more specialists, rather than in counties with five or more specialists as applied in 2003.
- The point at which members' prescription drug co-payments are reduced was increased from 50 co-payments per year, for a member and all his/her covered family members combined, to 75.
- Coverage was not available through Anthem under the KEHP program. This affected sixteen counties where Anthem offered PPO coverage to KEHP members in 2003
- Humana:
 - Discontinued offering HMO or POS options to KEHP members, except in six northern Kentucky counties.
 - Failed to meet the Commonwealth's network requirements, with respect to its PPO options, in three counties where it offered PPO coverage to KEHP members in 2003.
 - Extended PPO coverage options in forty counties.
- Bluegrass Family Health failed to meet the Commonwealth's network requirements in one county where it offered PPO coverage to KEHP members in 2003; however, it extended PPO coverage options in eight counties, and HMO and POS options in four counties.
- CHA newly offered HMO, POS, and PPO options in two counties.
- Through the Governor's executive order, the Commonwealth provided a health insurance subsidy for employees electing the PPO A option dependent health insurance under the lowest cost carrier in the 21 counties where the cost of this coverage exceeded the cost in the other 99 counties. This subsidy was set to an amount in each affected county that resulted in all employees paying the same employee contribution, for all coverage tiers, for the lowest cost PPO A option.
- Legislation enacted by the 2003 General Assembly:
 - Through HB 95, the requirement that an employee's employment must be in the same county as his/her residence for the employee to be eligible to elect coverage in an adjacent county and receive the Commonwealth's subsidy for that county, if the hospital in the county where the member lives does not offer certain services and a hospital in the adjacent county does, was removed.
 - Through HB 430, the service required for KRS participants to be eligible to participate in the KEHP program was increased from five years to ten years for individuals hired on or after July 1, 2003.

	Cardiac Rehabilitation Therapy (per visit)—Limit 20 visits per year.	\$30 co-pay (per visit)
	Speech Therapy (per visit)—Limit 20 visits per year.	\$30 co-pay (per visit)
	Skilled Nursing Facility (per admission)—Limit 20 days per year.	\$1,500 co-pay

In 2005:

- The Request for Proposal (RFP) was released with the following benefit changes:
 - The benefit options for the HMO, POS, and EPO plan types were removed.
 - The RFP included three (3) PPO Options for which bids were requested. These options include and are entitled:
 - “Commonwealth Essential”
 - “Commonwealth Enhanced”
 - “Commonwealth Premier”

(Please refer to the 2005 Plan section of Appendix A for a description of each of these options.)

- The RFP was released requesting carrier bids across six different scenarios. The scenarios were:
 - One vendor, per geographic region, under a fully-insured arrangement;
 - One vendor, statewide, under a self-insured arrangement;
 - One vendor, per geographic region, under a self-insured arrangement;
 - One vendor, statewide, under a fully-insured arrangement;
 - One vendor, per geographic region, under a fully-insured arrangement (with alternate network access requirements, noted below); and
 - One vendor, per geographic region, under a self-insured arrangement (with alternate network access requirements, noted below).

A *fully-insured arrangement* is the type of healthcare funding arrangement currently used by the Commonwealth. It requires insurers to assume the full risk of all the state employee healthcare costs in exchange for premium payments from the state. In contrast, a *self-insured arrangement* is one in which no insurance company collects premiums or assumes risk. Instead, the state would—in effect—act as its own insurance company, assume the cost risk and pay actual claims with the money normally earmarked for insurance company premiums.

- For scenarios one through four, the following network requirements had to be met:
 - Hospital Requirement: If one or more hospitals exist in a county, the vendor must have at least one of the county’s hospitals in its network, unless no bidder for the county, under the scenario being considered, have any of that county’s hospitals in its network.
 - Physician Requirement: The vendor must have at least 25% of the county’s PCP’s in its network. If there are ten or more specialist physicians submitted as practicing in the county, the vendor must have at least 40% of the county’s specialist physicians in its network.
- For scenarios one and three the following requirements were in addition to the above:
 - Must meet both hospital and physician network requirements in 85% of the counties within the region and in counties where at least 85% of the group members reside.

- For scenarios two and four, the following requirements were in addition to the above:
 - Must meet both hospital and physician network requirements in each of the eight in-state regions in 85% of the counties within a region and in counties where at least 85% of the group members reside.
- For scenarios five and six, the following network requirements had to be met:
 - Hospital Network Requirement: The vendor must have at least one network hospital in 75% of the counties having a hospital in each region.
 - PCP Network Requirement: The vendor must have at least eight PCPs per 1,000 eligible Commonwealth members per region. Additionally, each vendor must have at least one PCP in each county where it has a hospital.
 - Specialist Network Requirement: Vendor must have at least six specialists per 1,000 eligible Commonwealth members per region.
- Contracts were signed and the following carriers were awarded the following regions:
 - Anthem was awarded Region 1 and Region 2 under a self-insured basis.
 - United Healthcare was awarded Region 3 and Region 6 under a fully-insured basis.
 - Bluegrass Family Health was awarded Region 4 and Region 5 under a fully-insured basis.
 - CHA Health was awarded Region 7 and Region 8 under a fully-insured basis.
- For the first time in many years, Humana was not awarded any area in the Commonwealth.
- For the first time, the employee's cost for health insurance was based on their salary.
- For the first time, the Commonwealth offered an additional subsidy to employees that did not smoke.
- Out-of-state retirees were assigned to the county of their last employment for purposes of selecting healthcare. This created concern from the out-of-state retirees who worked for the state or for those that retired from Regions 4, 5, 7 and 8 because Bluegrass Family Health and CHA Health were regional carriers and did not immediately have a nationwide network. This caused members to accept out-of-network benefits.
- Because this was the first major benefit change in a number of years, state employees and teachers (led by the Kentucky Education Association) held protests throughout the Commonwealth, many were bused to Frankfort for a day of protest and teachers threatened to strike.
- After several weeks, Governor Fletcher called the General Assembly into a special session to deal with the shortage of money available to fund the program. As a result of the special session, HB 1 was passed. In summary, HB 1 made the following:
 - Retained the Commonwealth Essential Option Plan and removed the Commonwealth Preferred and Commonwealth Premium Options.
 - Restored the 2004 PPO A plan benefits as the Commonwealth Enhanced Option.
 - Offered the Commonwealth Premier Option.
 - Provided additional funding for these three options, including additional dependent subsidies.
 - Set the employee contributions as outlined in HB 1.
 - Restored the employer contribution to the healthcare FSA for employees waiving coverage to \$234.

Appendix – KEHP Program Changes and Plan Design Provisions

- Required the Personnel Cabinet to submit the benefits for the 2006 Plan Year to the Employee Advisory Committee thirty (30) days prior to the release of the Request for Proposal.
- Created the Blue Ribbon Panel on Public Employee Health Benefits for the purpose of examining all aspects of health benefits available to public employees including the procurement process, benefits offered, plan membership, implementation, maintenance and administration of the plan; alternative methods of providing benefits and services, and any other issues related to public employee health benefits the panel determines to be relevant.

2005 Public Employee Health Insurance Program Benefit Provisions

Covered Services	Commonwealth Essential

*Subject to annual deductible

** After the 75th prescription has been filled, excluding mail order, the co-payment will reduce to \$5 generic, \$10 preferred brand and \$20 non-preferred brand.

In 2006:

- An RFP for the 2006 plan year was released, marking a dramatic change in the Commonwealth’s strategy for providing employee healthcare benefits. This RFP solicited bids for:
 - A single vendor to provide Third Party Administration (TPA) services on a state-wide basis;
 - A single vendor to provide Pharmacy Benefits Administration (PBA) services on a state-wide basis; and
 - A single vendor to provide administrative services for Flexibles Spending Accounts (FSA), HIPAA and COBRA. The contract for these services was to be awarded to the vendor for medical TPA services, but was structured as a separate contract to provide flexibility to the Commonwealth in future years.
- The Commonwealth moved from a program that had historically been fully-insured to a program that was self-insured statewide.
- Emphasis was placed on experience with a large employer group, having at least 100,000 covered lives.
- A national provider network was also critical to a successful bid, to ensure adequate provider networks for out-of-state retirees.
- To provide further emphasis to this change in direction, the plan was given a name change, and is now called the “Kentucky Employees Health Plan.”
- Benefits for 2006 would remain the same as those offered in 2005, with the same three benefit plan options available:
 - “Commonwealth Essential”
 - “Commonwealth Enhanced”
 - “Commonwealth Premier”
- Contracts were awarded and signed as follows:
 - Humana was awarded a contract for medical claims administration
 - Humana was also awarded a contract for administration of Flexible Spending Accounts, HIPAA and COBRA
 - Express Scripts was awarded a contract for pharmacy benefits administration
- For the first time, contracts were awarded for a multi-year term. The initial term of the contracts was 30 months, with eight (8) optional one-year renewals – meaning the contracts could be in place for ten and one-half years.
- None of the insurance carriers who had provided coverage in 2005 were awarded contracts for 2006:
 - Bluegrass Family Health and CHA Health did not meet the minimum vendor requirements and were ineligible to bid; and
 - Anthem and United HealthCare were not selected.
- The incentive for those employees who don’t smoke was continued in 2006, with a \$15 per month incentive for employees with single (employee-only) coverage, and a \$30 per month incentive for employees who chose to cover their dependents.
- Employee contributions did not change from 2005 to 2006. The Commonwealth absorbed any claims or other costs in 2006 that are above the employee contributions.

Appendix – KEHP Program Changes and Plan Design Provisions

- The Commonwealth's contribution for those employees who waive coverage was reduced again, from \$234 per month, to \$200 per month, for the period July-December.
- Legislation passed during the 2006 Regular Session of the General Assembly (HB380) mandated a 12% reduction in the employer contribution amount for July-December, effectively reducing total monthly premium equivalents by about \$10 million per month, to about \$85 million. There was no corresponding decrease in employee contributions.

In 2007:

- The Commonwealth offered an additional 4th benefit plan option, Commonwealth Select. Commonwealth Select is a high-deductible PPO with an embedded Health Reimbursement Arrangement (HRA) funded by the employer, as follows:
 - Single coverage – \$1,000 contributed to the HRA;
 - Couple coverage – \$1,500 contributed to the HRA;
 - Parent-Plus coverage – \$1,500 contributed to the HRA; and
 - Family coverage – \$2,000 contributed to the HRA.
- Contracts with Humana (medical claims administration, flexible benefits, disease management, case management & utilization management, and HIPAA/COBRA administration) and Express Scripts, Inc. (pharmacy benefit administration) were maintained as in 2006. The current contracts expire June 30, 2008, and have eight (8) one-year renewal options.
- For the Essential, Enhanced, and Premier Plans, the benefits remained unchanged from the 2006 plan year.

In 2008:

- The Commonwealth offered the same four benefit plans which were offered in 2007. The plans are:
 - Commonwealth Premier – a \$250/\$500 Deductible PPO plan;
 - Commonwealth Enhanced – a \$250/\$500 Deductible PPO plan;
 - Commonwealth Essential – a \$750/\$1,500 Deductible PPO plan;
 - Commonwealth Select – a \$2,000/\$3,000 Deductible consumer-directed plan with an embedded Health Reimbursement Account (HRA).
- The contracts with Humana (medical claims administration, flexible benefits, disease management, case management & utilization management, and HIPAA/COBRA administration) and Express Scripts, Inc. (pharmacy benefit administration) were renewed through December 31, 2009.
- \$54,000,000 in surplus funds from the 2006 plan year was used to lower the overall increases in 2008 employer and employee contributions from 10.40% to 5.80%.
- The incentive for employees who don't smoke was continued, with a \$15 per month incentive for employees with single (employee-only) coverage, and a \$30 per month incentive for employees who cover their dependents.
- The Commonwealth's contribution for employees who waive coverage was maintained at \$175 per month, the same amount as in 2007.

In 2009:

- The Commonwealth continued to offer four benefit plans; however, plans were re-designed and re-named.
 - Commonwealth Standard PPO – a \$750/\$1,500 Deductible PPO plan (formerly Commonwealth Essential, benefits remained the same);
 - Commonwealth Capitol Choice – a \$500/\$1,500 Deductible hybrid PPO plan with an up-front benefit allowance of \$500 per member (new in 2009);
 - Commonwealth Optimum PPO – a \$250/\$500 Deductible PPO plan (new in 2009, combined the former Enhanced and Premier plans);
 - Commonwealth Maximum Choice – a \$2,000/\$3,000 Deductible consumer-directed plan with an embedded Health Reimbursement Account (HRA) (formerly Commonwealth Select, benefits remained the same).
- The Commonwealth’s contribution for employees who waive coverage was maintained at \$175 per month, the same amount as in 2008.

In 2010:

- The Commonwealth offered the same four benefit plans which were offered in 2009 with slight changes to benefit designs. The plans are:
 - Commonwealth Standard PPO – a \$500/\$1,500 Deductible PPO plan (changed from \$750/\$1,500 in 2009);
 - Commonwealth Capitol Choice – a \$500/\$1,500 Deductible hybrid PPO plan with an up-front benefit allowance of \$500 per member;
 - Commonwealth Optimum PPO – a \$300/\$600 Deductible PPO plan (changed from \$250/\$500 in 2009);
 - Commonwealth Maximum Choice – a \$2,000/\$3,000 Deductible consumer-directed plan with an embedded Health Reimbursement Account (HRA).
- The Commonwealth’s contribution for employees who waive coverage was maintained at \$175 per month, the same amount as in 2009.

** After the 75th prescription has been filled, excluding mail order, the co-payment will reduce to \$15 preferred brand and \$30 non-preferred brand.

In 2011:

- KEHP evaluated the advantages and disadvantages of continuing "grandfathered health plan" status under PPACA and determined grandfathered status would be maintained for 2011.
- As PPACA regulations limit the amounts that group health plans can change benefit provisions and employee contributions to maintain grandfathered status, only slight changes were made in 2011:
 - Most plan copayments were increased by the greater of \$5 or 15%;
 - Most plan deductibles and out-of-pocket maximum amounts were increased 15% (however for the Standard PPO, deductibles and in-network out-of-pocket maximums were held constant; out-of-network out-of-pocket maximums were decreased);
 - Employee contributions were increased according to the limits allowed under PPACA while still maintaining grandfathered status (Optimum PPO, Maximum Choice, and Capitol Choice plans). Employee contributions for the Standard PPO plan were not increased.
- The Commonwealth offered the same four benefit plans which were offered in 2010 with slight changes to benefit designs, as noted above. The plans are:
 - Commonwealth Standard PPO – a \$500/\$1,500 Deductible PPO plan;
 - Commonwealth Capitol Choice – a \$575/\$1,725 Deductible hybrid PPO plan (changed from \$500/\$1,500 in 2010) with an up-front benefit allowance of \$500 per member;
 - Commonwealth Optimum PPO – a \$345/\$690 Deductible PPO plan (changed from \$300/\$600 in 2010);
 - Commonwealth Maximum Choice – a \$2,300/\$3,455 Deductible consumer-directed plan (changed from \$2,000/\$3,000 in 2010) with an embedded Health Reimbursement Account (HRA).
- Coverage was offered to dependent children up to age 26, whom do not have other equivalent coverage available.
- The Commonwealth's contribution for employees who waive coverage was maintained at \$175 per month, the same amount as in 2010.
- Legislation passed in 2010, and effective January 1, 2011, increased the amount of coverage that must be provided for autism spectrum disorders. HB 159 provides coverage for the diagnosis and treatment of autism spectrum disorders for individuals between the ages of 1 and 21, including coverage in the annual amount of \$50,000 for individuals who are 1-6 years of age, and coverage in the monthly amount of \$1,000 for individuals who are between the ages of 7 and 21.

In 2013:

- KEHP has chosen to retain their grandfathered status.
- As PPACA regulations limit the amounts that group health plans can change benefit provisions and employee contributions to maintain grandfathered status, only slight changes were made in 2013:
 - Most plan deductibles and out-of-pocket maximum amounts were increased slightly
 - Employee contributions were increased slightly according to the limits allowed under PPACA while still maintaining grandfathered status (Optimum PPO, Maximum Choice, and Capitol Choice plans). Employee contributions for the Standard PPO plan single tier was not increased.
 - There were also small increases to Optimum and Capitol Choice plan co-payments
- The Commonwealth offered the same four benefit plans which were offered in 2012 with slight changes to benefit designs, as noted above. The plans are:
 - Commonwealth Standard PPO – a \$600/\$1,800 Deductible PPO plan (changed from \$500/\$1,500 in 2012);
 - Commonwealth Capitol Choice – a \$615/\$1,850 Deductible hybrid PPO plan (changed from \$600/\$1,800 in 2012) with an up-front benefit allowance of \$500 per member;
 - Commonwealth Optimum PPO – a \$370/\$740 Deductible PPO plan (changed from \$355/\$720 in 2012);
 - Commonwealth Maximum Choice – a \$2,450/\$3,650 Deductible consumer-directed plan (changed from \$2,325/\$3,530 in 2012) with an embedded Health Reimbursement Account (HRA).
- The Commonwealth’s contribution for employees who waive coverage was maintained at \$175 per month, the same amount as in 2012.

In 2014:

- KEHP will offer four new plan options – two LivingWell health plan options and two Standard health plan options, which will result in a loss of grandfathered status in 2014.
- If the member chooses one of the KEHP LivingWell plans, they are making a LivingWell Promise and agree to:
 - Complete online HumanaVitality® Health Assessment between January 1, 2014–May 1, 2014
 - Keep contact information (i.e., mailing address, phone number, and email) current in KHRIS or, if a retiree, keep contact information current with their retirement system
- The plan design highlights for the new plan options are:
 - LivingWell CDHP - a \$1,250/\$2,500 Deductible consumer-directed plan with 85% coinsurance and \$500/\$1,000 embedded Health Reimbursement Account (HRA);
 - LivingWell PPO - a \$500/\$1,000 Deductible PPO plan with 80% coinsurance;
 - Standard PPO - a \$750/\$1,500 Deductible PPO plan with 70% coinsurance;
 - Standard CHDP - a \$1,750/\$3,500 Deductible consumer-directed plan with 70% coinsurance and \$250/\$500 embedded Health Reimbursement Account (HRA);
- The Commonwealth’s contribution for employees who waive coverage was maintained at \$175 per month, the same amount as in 2013.

** After the 75th prescription has been filled, excluding mail order, the co-payment will reduce to \$30 preferred brand and \$44 non-preferred brand.

In 2015:

- The Commonwealth offered the same four benefit plans which were offered in 2014 with minor changes to benefit designs:
 - LivingWell PPO – Reduce allergy shot copay from \$25 to \$15; reduce mental health/substance abuse copay to PCP levels
 - Standard PPO – Reduce In-network pharmacy out of pocket maximum from \$3,500/\$7,000 to \$2,500/5,000
- The plan design highlights for the four plan options are:
 - LivingWell CDHP - a \$1,250/\$2,500 Deductible consumer-directed plan with 85% coinsurance and \$500/\$1,000 embedded Health Reimbursement Account (HRA);
 - LivingWell PPO - a \$500/\$1,000 Deductible PPO plan with 80% coinsurance;
 - Standard PPO - a \$750/\$1,500 Deductible PPO plan with 70% coinsurance;
 - Standard CHDP - a \$1,750/\$3,500 Deductible consumer-directed plan with 70% coinsurance and \$250/\$500 embedded Health Reimbursement Account (HRA);
- The Commonwealth’s contribution for employees who waive coverage was maintained at \$175 per month, the same amount as in 2014.

Legislative Mandates

The following legislative mandates enacted by the Kentucky General Assemblies may affect the Public Employee Health Insurance Program. This is intended for context and historical purposes only. The Public Employee Health Insurance Program is subject to the Kentucky Insurance Code (Chapter KRS 304.17 and 17A) to the extent that code sections are specifically enumerated as such in the either the Insurance Code or Chapter KRS 18A.

History of Legislation Enacted by the General Assemblies that Impacts the Public Employee Health Insurance Program		
Year Enacted	Bill	Key Provisions
2001	HB 97	The Office of Public Employee Health Insurance was established under the Personnel Cabinet.
2001	HB 138	Coverage of physician assistants assisting in surgery.
2001	HB 145	Personnel Cabinet and Cabinet for Families and Children to prepare recommendations regarding allowing foster parents to participate in the Public Employee Health Insurance Program.
2002	HB 39	Coverage of anesthesia and hospital or facility charges in connection with dental procedures for children below the age of nine, persons with serious mental or physical conditions and persons with significant behavioral problems.
2002	HB 163	Expands Kentucky Group Health Insurance Board to include: <ul style="list-style-type: none"> ▪ The Director of the Administrative Office of the Courts ▪ KRS retiree ▪ KTRS retiree ▪ Active teacher ▪ Active state employee ▪ Active classified education support employee
2002	HB 369	Mail order prescription drug coverage for Public Employee Health Insurance Program.
2002	HB 395	Revised caps for inherited metabolic diseases to be \$4,000 annually for low-protein modified foods and \$25,000 annually for medical formulas.
2002	HB 801	Entities that join the Kentucky Retirement System must join the Public Employee Health Insurance Program for their active employees.
2002	HB 821	<ul style="list-style-type: none"> ▪ Personnel Cabinet to study whether to allow health insurance bidders to bid different rates in different geographic areas of the Commonwealth. ▪ Allows Public Employee Health Insurance members to select coverage in a contiguous county and receive the state subsidy for that county if the hospital in the county where the member lives and works does not offer certain services and a hospital in the contiguous county does.

History of Legislation Enacted by the General Assemblies that Impacts the Public Employee Health Insurance Program		
Year Enacted	Bill	Key Provisions
2002	HB 846	<p>Restricts individuals to one state subsidy for health insurance.</p> <p>Entities participating in the Public Employee Health Insurance Program must sign a contract with the Personnel Cabinet.</p> <p>Expands the Advisory Committee of State Health Insurance Subscribers to include 2 members from the Kentucky Association of Counties and 2 from the Kentucky League of Cities.</p> <p>Directs the LRC to study the cost to members of the state health insurance group as a result of entities covering their retirees under the Public Employee Health Insurance Program but not their active employees and recommend administrative procedures to collect this cost from these entities.</p> <p>Directs the LRC to study the Public Employee Health Insurance Program.</p> <p>Allows Public Employee Health Insurance members to select coverage in a contiguous county and receive the state subsidy for that county if the hospital in the county where the member lives and works does not offer certain services and a hospital in the contiguous county does.</p>
2002	SB 152	Coverage for hearing aids and related services for persons under 18 years of age for the full cost of one hearing aid per impaired ear up to \$1,400 every 36 months.
2002	SCR 34	Directs the Interim Joint Committee on Banking and Insurance to study the feasibility of self-funding at least one health insurance option for state employees.
2003	HB 95	Removes the requirement that an employee's employment must be in the same county as his residence for the employee to be eligible to elect coverage in an adjacent county and receive the state subsidy for that county, if the hospital in the county where the member lives does not offer certain services and a hospital in the adjacent county does.
2003	HB 183	Requires that the sponsor of a bill that contains a mandated health benefit request, have prepared, and attach a financial impact statement before final consideration by a standing committee.

History of Legislation Enacted by the General Assemblies that Impacts the Public Employee Health Insurance Program		
Year Enacted	Bill	Key Provisions
2003	HB 370	Required the Commonwealth’s Public Employee Health Insurance Program to include a scenario that allows regional rating in its 2004 health insurance Request for Proposal, with regions defined as the partnership regions designated by the Department for Medicaid Services.
2003	HB 430	For individuals hired on or after July 1, 2003, increased the service required of participants KRS from a minimum of 5 years to 10 years to be eligible to participate in the Commonwealth’s retiree health insurance program.
2004	HB 1	<p>Legislation that changed the Public Employee Health Insurance Program from fully funded to self funded.</p> <p>Requires that group healthcare coverage contain three health plans named Commonwealth Essential, Commonwealth Enhanced and Commonwealth Premier.</p> <p>Permits married couples who are both eligible to participate in the state health insurance plan to be covered under one family health benefit plan and to apply each employer contribution for the single premium of the plan they select toward family coverage, not to exceed the total premium.</p> <p>Requires the state contribute \$234 per month to the employee’s flexible spending account for those who waive health insurance coverage.</p> <p>Allows employees to carry forward to the succeeding plan year, any unused funds remaining in a flexible spending account at the end of the plan year to the extent permissible by the Internal Revenue Code in effect on the date the plan year ends.</p>
2006	HB131	Includes provision to pay optometrists the same amount as physicians or osteopaths when the services provided are rendered by an optometrist.
2006	HB131	Adds language requiring the Public Employee Health Insurance Program to be in compliance with certain specifically enumerated provisions of the Insurance Code, including appeals & grievance procedures, utilization review, claims payment, and emergency medical care.
2006	HB380	Reduced the employer contribution for 2006 health insurance premiums by 12% for the period July – December, 2006.

History of Legislation Enacted by the General Assemblies that Impacts the Public Employee Health Insurance Program		
Year Enacted	Bill	Key Provisions
2006	HB380	Provided explicit statutory authority to establish a self-insured health plan for public employees.
2006	HB380	Requires the plan to be established by administrative regulations.
2006	HB380	Provides appeal rights for formulary changes, and ensures independent review of any proposed changes in formulary.
2006	HB380	Establishes a Public Employee Health Insurance Program Trust Fund for the plan, and defines the allowable expenses to be paid by the Trust Fund.
2006	HB380	Requires a Health Reimbursement Account to be provided for those employees who waive coverage under the Plan, to be funded by the employer at an amount no less than \$175 per month.
2006	HB380	Requires an audit of the Trust Fund within 90 days of the end of each Fiscal Year.
2006	HB380	Establishes quarterly reporting requirements for the Plan.
2007	SB22	Create a new section of KRS Chapter 18A to require the Personnel Cabinet, Department for Employee Insurance, to offer TRICARE supplement insurance to eligible TRICARE insurance beneficiaries; require the Commonwealth to pay for individual TRICARE supplement insurance; permit an employee eligible for TRICARE to choose between the Commonwealth sponsored TRICARE supplemental insurance or other coverage offered through the public employee health insurance program; permit the secretary of the Personnel Cabinet to promulgate administrative regulations. Note this legislation is pre-empted by Federal law which prohibits employers from offering incentives to employees if they elect coverage under a Federally-sponsored program.
2008	HB 321	Provides the General Assembly with the authority to review trust fund expenditures and authorize spending for trust fund receipts. Outlines quarterly report content, formulary review changes, deadlines and other administrative regulations regarding the trust.
2008	HB 406	Requires agencies to coordinate the timing of employer payments to Public Employee Health Insurance Program in such a manner as to provide the agencies the flexibility to lapse \$7 million in General Fund moneys in each fiscal year.

History of Legislation Enacted by the General Assemblies that Impacts the Public Employee Health Insurance Program		
Year Enacted	Bill	Key Provisions
2009	HB 143	Allows the Governor to direct a one-time transfer of up to \$50 million from the Public Employee Health Insurance Trust Fund's surplus to the General Fund. Outlines the conditions under which the transfer is authorized.
2010	HB 159	Requires coverage for the diagnosis and treatment of autism spectrum disorders for individuals ages 1 to 21, limited to an annual maximum of \$50,000 for individuals ages 1 through 6, and limited to a \$1,000 monthly maximum for individuals ages 7 through 21.
2010	HB 1	Report of the Group Health Insurance Board: Notwithstanding KRS 18A.226(5)(b) and (c), the report of the Kentucky Group Health Insurance Board shall be submitted to the Governor, the Legislative Research Commission, and the Chief Justice of the Supreme Court by December 15th of each calendar year.
2011	HB 229	Amend KRS 78.530 to allow agencies that are established by a merger or interlocal agreement consisting of agencies who participated in the County Employees Retirement System (CERS) on or before April 9, 2002, to be exempt from the requirement of signing a contract for employee health insurance with the Personnel Cabinet as a condition of participation in CERS; apply the amendments to KRS 78.530 to existing agencies established before the effective date of the Act.
2012	HB 265	State Group Health Insurance Plan - Plan Year Closure: Notwithstanding KRS 18A.2254, plan years 2006, 2007, 2008, and 2009 shall be considered closed as of December 31, 2011, and all balances from those plan years shall be transferred to Plan Year 2010. All other income and expenses attributable to the closed plan years shall be deposited in or charged to the Plan Year 2010 account after that date. Notwithstanding KRS 18A.2254, no transfer of funds from Plan Year 2010 is authorized.

History of Legislation Enacted by the General Assemblies that Impacts the Public Employee Health Insurance Program		
Year Enacted	Bill	Key Provisions
2014	HB 235	State Group Health Insurance Plan - Plan Year Closure: Notwithstanding KRS 18A.2254, Plan Years 2010 and 2011 shall be considered closed as of December 31, 2013, and all balances from those plan years shall be transferred to Plan Year 2012. All other income and expenses attributable to the closed plan years shall be deposited in or charged to the Plan Year 2012 account after that date. This section shall apply retroactively to December 31, 2013, and any action to the contrary shall be considered null and void. HB 235 also authorized a fund transfer from the trust fund to the general fund in the amount of \$93,000,000.
2014	HB 138	Amend KRS 18A.2254 to add health flexible spending accounts as an option for public employees in addition to the Public Employee Health Insurance Program.

General Kentucky Insurance Code Legislative Mandates

The Department of Insurance provided the summary in Exhibit LVII of 29 mandated health insurance benefits that currently exist in Kentucky’s statutes. These mandates are generally not applicable to the Public Employee Health Insurance Program. This is intended for context and historical purposes only. The Public Employee Health Insurance Program is subject to the Kentucky Insurance Code (Chapter KRS 304.17 and 17A) to the extent that code sections are specifically enumerated in the either the Insurance Code or Chapter KRS 18A.

Kentucky Mandated Health Insurance Benefits	
Newborn Coverage	KRS 304.17-042, KRS 304.18-032, KRS 304.32-153, and KRS 304.38-199. Coverage for newborn children from the moment of birth, including necessary care and treatment of medically diagnosed inherited metabolic diseases for newborns—KRS 304.17A-139(2).
Inherited Metabolic Disease	KRS 304.17A-139(4). Coverage for amino acid modified preparation and low protein modified food products for treatment of inherited metabolic diseases for conditions listed in KRS 205.560, if prescription drugs are covered. Benefits can be limited to \$4,000 per year for low-protein modified foods and \$25,000 per year for medical formulas.
Ambulatory Surgical Centers	KRS 304.17-317, KRS 304.18-035, & KRS 304.32-156. Coverage for treatment at ambulatory surgical centers.
Optometrists, osteopaths, physicians, podiatrists, and chiropractors	KRS 304-17-035, KRS 304.18-095, KRS 304.32-157 & KRS 304.38-195. KRS 304.17A-275 requires that coverage be provided for services provided by osteopaths. Osteopaths can also be PCP’s. Services of these providers to be covered as described.
Chiropractors	KRS 304.17A-170 & 171. Access to chiropractors in network plans.
Dependent Eligibility	KRS 304.17A-256. All group health benefit plans which provide dependent benefits shall offer the master policyholder the following two (2) options to purchase coverage for an unmarried dependent child: (a) Coverage until age nineteen (19) and coverage to unmarried children from nineteen (19) to twenty-five (25) years of age who are full-time students enrolled in and attending an accredited educational institution and who are primarily dependent on the policyholder for maintenance and support; and (b) Coverage until age twenty-five (25).
Dentists	KRS 304.17-315, KRS 304.18-097, KRS 304.32-157 & KRS 304.38-1937. Services of dentists to be covered as described.

Kentucky Mandated Health Insurance Benefits	
Temporomandibular Joint Disorder	KRS 304.17-319, KRS 304.18-0365, KRS 304.32-1585 & KRS 304.38-1937. Coverage for specific services related to TMJ and associated disorders. Also see Administrative Regulation 806 KAR 17:090.
Screening Mammography	KRS 304.17-316, KRS 304.18-098, KRS 304.32-1591 & KRS 304.38-1935. Screening mammography at specific intervals. KRS 304.17-316(2)(b) requires mammography coverage at any age for a covered person diagnosed with breast cancer.
Breast Cancer	KRS 304.17-3165, KRS 304.17A-135, KRS 304.18-0985, KRS 304.32-1595 & KRS 304.38-1936. Coverage for the treatment of breast cancer, including ABMT.
Breast reconstruction coverage, endometriosis and endometritis	KRS 304.17-3163, KRS 304.18-0983, KRS 304.38-1934, KRS 304.32-1593 & KRS 304.17A-134. Coverage for the treatment of breast reconstruction.
Psychologists and Clinical Social Workers	KRS 304.17-3185, KRS 304.18-0363, KRS 304.32-166 & KRS 304.38-1933. Services of these providers to be covered as described.
Registered nurse first assistant benefits	KRS 304.17A-146. Health benefit plans that cover surgical first assisting benefits or services must provide coverage for a registered nurse first assistant who performs the services within the scope of their license.
Conversion benefits	2002 Ky. Acts, Chapter 351, Section 9. Maximum benefits of at least \$500,000 for conversion policies—KRS 304.18-120(1). Minimum benefits—806 KAR 17:260.
Work Related Illness/Injuries	KRS 304.12-250. No contract can exclude coverage solely on the basis that the health condition is work related.
Disabled Children	KRS 304.17-310. Individual health insurance contracts must continue coverage for disabled children beyond the limiting age. Although this statute is applicable only to individual contracts, group carriers commonly use it.
Adopted Children	KRS 304.17-140. Coverage for legally adopted children or children under court-appointed guardianship.
Human Immunodeficiency Virus	KRS 304.12-013(5). No insurer or HMO may exclude or limit coverage for AIDS, etc.
Maternity Coverage	KRS 304.17A-145. Specified length of hospital stay following vaginal/cesarean deliveries.
Cochlear Implants	KRS 304.17A-131. Coverage for cochlear implants.
Autism	KRS 304.17A-143. Coverage for autism, including respite services.

Kentucky Mandated Health Insurance Benefits	
Diabetes	KRS 304.17A-148. Coverage for diabetic services, supplies, and training.
Women’s Health	KRS 304.17A-134, KRS 304.17-3163, KRS 304.18-0983, KRS 304.32-1593 & KRS 304.38-1934. Breast reconstruction, endometriosis, endometritis, and bone density testing.
Domestic Violence	KRS 304.17A-155. Claims may not be denied or considered pre-existing on the basis of domestic violence.
Hospice	KRS 304.17A-250(8). Coverage for hospice care equal to Medicare benefits.
Telehealth services	KRS 304.17A-138. (Effective when the plans are issued or renewed after July 15, 2001.)
Mental health coverage	KRS 304.17A-661. Large group health benefit plans must cover mental illness the same as physical illness, if they provide mental illness benefits.
Physician assistant benefits	KRS 304.17A-1473. Health Benefit Plans that cover surgical first assisting or intraoperative surgical care services must provide coverage for the services of a physician assistant. (Effective for Health Benefit Plans issued or renewed on or after July 15, 2001.)
Anesthesia and hospital or facility charges	2002 Ky. Acts, Chapter 199. Requires coverage for payment of anesthesia and hospital or facility charges in connection with dental procedures for children below the age of nine, persons with serious mental or physical conditions and persons with significant behavioral problems in all health benefit plans that provide coverage for general anesthesia and hospitalization services.
Hearing aids and related services	2002 Ky. Acts, Chapter 106, Section 1(2). Requires coverage for hearing aids and related services for persons under 18 years of age for the full cost of one hearing aid per impaired ear up to \$1,400 every 36 months.
Colorectal Cancer Detection	KY Act, Chapter 107 provides that all health benefit plans provide for colorectal cancer examinations and laboratory tests, specified in current American Cancer Society guidelines.

Kentucky Mandated Health Insurance Benefits	
Health benefit plan wellness programs.	SB 114 (2011) creates a new section of Subtitle 17A of KRS Chapter 304 to authorize health benefit plans to offer incentives or rewards to members who participate in a voluntary wellness or health improvement program; the authorized incentives and rewards shall not be deemed a violation of the rebate prohibition contained in KRS 304.12-090 and 304.12.010; if a health plan member is unable to participate in a wellness or health improvement programs due to a medical condition, verification may be required; and, an insurer shall not be prohibited from offering incentives or rewards to members participating in a wellness or health improvement program if otherwise allowed by state or federal.

Glossary

Accountable Care Organization (ACO): A provider organization that accepts responsibility for meeting the health needs of a specific population, including the cost and quality of care and effectiveness of services. ACO members share in the savings that result from their cooperation and coordination.

Allowed Charge: The amount paid in total to a healthcare provider for services received by a health plan member. This amount includes both the health plan's payment and the member's cost sharing (deductible, co-payment, co-insurance, etc.). This is the total amount billed by a healthcare provider for a covered service, after the application of the health plan's negotiated discount, but prior to any member cost-sharing.

Brand Name Drug: A trademarked drug for which the manufacturer holds the patent or has purchased the rights to manufacture from the patent holder. Brand name drugs are generally more expensive than generics. A single-source brand name drug is a drug that is only produced by one manufacturer and for which a generic equivalent is not available. Multi-source brand name drugs are drugs produced by more than one manufacturer, as generic equivalents are available.

Capitation: A set amount of money paid to a provider of service based on membership demographics rather than payment based on services provided.

COBRA Beneficiaries: Individuals who no longer meet the eligibility requirements for healthcare coverage through a group health plan, but by federal statute, are eligible to continue their healthcare coverage for a period of time under the employer's healthcare program by paying 102% of the total premium rate.

Co-Payment: A stipulated dollar amount that a health plan member must pay out of pocket when healthcare services, supplies, or prescription drugs are received.

Coinsurance: A percentage of the cost of covered healthcare services, supplies, or prescription drugs that a health plan member must pay out of pocket.

Coverage Tier (also referred to as Coverage Level): The choices available to employees with respect to the individuals they wish to cover under an employer's health insurance program. Under the Commonwealth's Public Employee Health Insurance Program, the following tiers (or levels) apply:

- Single: coverage for only the employee or retiree
- Couple: coverage for the employee or retiree and his/her spouse
- Parent Plus: coverage for the employee or retiree and all eligible children
- Family: coverage for the employee or retiree, his/her spouse and all eligible children

Dependent Subsidy: When an employer specifically pays a portion, or all, of the dependent premium for an employee, this is an *explicit dependent* subsidy. When the differential between single and dependent healthcare premium rates is less than the differential between employee/retiree healthcare claims and dependents' healthcare claims, an *implicit dependent subsidy* exists.

Employee: References to "Employees" includes Active Employees, non-Medicare-eligible retirees, and COBRA participants. When meant to reflect only those employees still actively at work, the term "Active Employees" will be used.

Exclusive Provider Organization (EPO): These plans require services to be received from a healthcare provider that participates in the health plan's network in order for the service to be covered by the

plan. Depending on the insurance carrier chosen, the participant may or may not have to designate a primary care physician to coordinate his/her care. Beginning January 1, 2000, EPO Option C was added to the Commonwealth's Public Employee Health Insurance Program.

Formulary: A preferred list of medications developed by a health plan or Pharmacy Benefit Manager (PBM) to guide physician prescribing and pharmacy dispensing. This list is periodically updated by the PBM to add or remove drugs.

Flexible Spending Account (FSA): A flexible spending account or reimbursement account is funded by employee salary reductions, employer contributions or both. Amounts placed in these accounts are used to provide reimbursement for eligible expenses incurred by the employee or eligible beneficiaries for specified benefits during a plan year.

Fully Insured (also referred to as Insured or Fully Funded): When a health plan assumes the financial risk associated with medical expenses for an employer group in exchange for the premiums paid by the group.

Grandfathered Plan: An insured or self-insured group health plan offered by an employer that was in existence on March 23, 2010, the date on which the PPACA was enacted.

Generic Drug: A drug whose therapeutic ingredients are the same as a brand name drug, but which is sold under a name that is not trademarked. Generic drugs are usually less expensive than their brand name counterpart.

Health Maintenance Organization (HMO): These plans require services to be received from a healthcare provider that participates in the health plan's network in order for the service to be covered by the plan. Participants in these plans must select a primary care physician to coordinate their care. For the majority of the services covered by the HMO, participants pay a specified dollar amount (co-payment) at the time services are received.

Health Reimbursement Arrangement (HRA): IRS-sanctioned arrangements that allow an employer, as agreed to in the HRA plan document, to reimburse for medical expenses paid by participating employees. HRAs reimburse only those items (co-pays, coinsurance, deductibles and services) agreed to by the employer which are not covered by the company's selected standard insurance plan (any health insurance plan, not only high-deductible plans). These arrangements are described in IRS Section 105.

Health Savings Account (HAS): Owned by individuals enrolled in a high deductible health plan (HDHP), as a tax-advantaged means to pay for qualified medical expenses. Funds roll over and accumulate from year to year if they are not spent.

Medical Loss Ratio (also referred to as Loss Ratio): The ratio between the incurred claims paid by a health plan and the premium taken in by the health insurer. Example: An insurance company receives \$100,000 in premium for a month and pays out \$89,000 in claims—the Medical Loss Ratio is 89% (\$89,000/\$100,000).

Out-of-Pocket Limit: A specified dollar amount present in some health plan provisions that limits the amount of out-of-pocket expenses a plan participant pays in a Plan Year for covered healthcare services. Once the participant reaches the out-of-pocket limit, the health plan pays 100% of his/her covered healthcare expenses for most or all services.

Patient Protection and Affordable Care Act (PPACA): A product of the health reform agenda, signed into law on Tuesday, March 23, 2010 by President Obama. The PPACA was then amended by the Healthcare and Education Reconciliation Act in many ways. The law includes numerous provisions to

be phased in over several years, including eligibility of coverage, health insurance exchanges, expanding Medicaid eligibility, and medical loss ratio regulations.

Pharmacy Benefit Manager (PBM): An organization that functions as a third party administrator for a health plan’s pharmacy claims, contracts and management.

PEPM (Per Employee Per Month): A measure of costs as expressed as total costs divided by total number of employees.

PMPM (Per Member Per Month): A measure of costs as expressed as total costs divided by total number of covered lives (employees, spouses, and dependent children).

Point of Service (POS): These plans mimic the benefits of the HMO options, provided an individual receives services from a healthcare provider that has contracted with the health plan and services are coordinated through the primary care physician designated by the individual. Unlike the HMO options, the POS options provide coverage for services received from a provider that is not in the health plan’s network, at a higher cost sharing percentage to the insured.

Pre-existing Condition: A medical condition developed prior to an individual obtaining insurance, which may result in the limitation in the contract on coverage or benefits.

Preferred Provider Organization (PPO): These plans require lesser cost sharing from participants, if covered services are received from a healthcare provider that participates in the health plan’s network. Coverage is provided for services received from a provider that is not in the health plan’s network, with participants paying a larger proportion of the cost of covered services. Unlike POS plans, PPOs do not require referrals from a participant’s primary care physician. The PPOs offered under the Commonwealth’s Public Employee Health Insurance Program provide the same benefits for services received in a network physician’s office and for prescription drugs as do the HMO and POS options. However, for services received in a network hospital or surgical center, PPO participants pay a percentage of the cost of services received (co-insurance) after paying an annual deductible, rather than a specified dollar co-payment. The amount of co-insurance that a participant pays annually is capped by the PPO plan’s out-of-pocket limit.

Premium: The monetary amount paid by an employee or the employer for health insurance benefits. It is routinely paid on a monthly basis. In an insured program, the amount paid to an insurance company in exchange for its payment of all healthcare costs covered under the terms of the health plan and for administrative services. For large groups, like the Public Employee Health Insurance Program, premiums are determined based on the healthcare services consumed by the plan’s members in the past and the prices charged by healthcare providers. If the premiums charged by the insurer are less than the actual healthcare costs incurred by the plan’s members and the insurer’s operating costs, the insurer loses money. The premium includes both the employer’s subsidy and the employees’ contributions for health insurance.

Premium Equivalent: Analogous to “Premiums,” Premium Equivalents reflect the expected actuarial costs for a plan option and coverage tier under a self-insured arrangement.

Primary Care Physician: For purposes of the applying the Commonwealth’s qualifying network requirements, a primary care physician includes: family practice physicians, general practice physicians, pediatricians, and internists.

Provider Network: A list of contracted healthcare providers, unique to a health plan, from which an insured can obtain services that are covered under an HMO or are covered at a preferred benefit level under a POS or PPO.

Self Insured (also referred to as Self Funded): A health plan whose medical claims' financial risk is assumed by the employer and not by the health plan.

Specialist Physician: For purposes of the applying the Commonwealth's qualifying network requirements, a specialist physician includes all physicians other than: family practice physicians, general practice physicians, pediatricians, and internists.

Stop Loss Coverage: Stop loss coverage is insurance that covers a health plan's expenses above a specified amount, either for each covered individual (specific coverage) or for the plan as a whole (in aggregate). This coverage is also referred to as **Excess Loss Coverage**.

Third Party Administrator (TPA): An organization that performs health insurance administrative functions (e.g., claims processing) for a plan or an employer. The TPA may also provide the healthcare provider network.

Unescorted Retirees: Individuals who participate in a state sponsored retirement program are eligible to participate in the Public Employee Health Insurance Program. These retirees include not only former employees of state agencies and school districts, but also former employees of cities, counties, and municipalities that participate in the County Employees Retirement System (CERS) and former employees of regional universities. Health insurance coverage for the pre-65 retirees of the Commonwealth's KTRS and KRS programs is provided through the same program that covers active state employees. However, active employees of the Commonwealth's regional universities do not participate in the Public Employee Health Insurance Program, neither do active employees of most of the cities, counties and municipalities that participate in the CERS program. Rather, these entities maintain separate health insurance programs for their active employees. In the analysis conducted by the Segal Company in October 2002 at the request of the Interim Joint Committee on State Government, the term "unescorted retirees" was assigned to this group of retirees.

Waiver: An eligible employee or retiree who declines healthcare coverage through his/her employer for a plan year. Often the employee obtains healthcare coverage through another means, typically a spouse's employer or an individual.
