Must possess a valid driver's license prior to employment in this job classification. Must maintain any required licensure(s),

certification(s), or other credentials for the length of employment in this job classification. Employing agency is responsible for ensuring employee possesses and maintains required licensure(s), certification(s) or other credentials.

EXAMPLES OF DUTIES OR RESPONSIBILITIES OF THE JOB CLASSIFICATION: *Examples of duties or responsibilities are not to be construed as describing what the duties or responsibilities of any position shall be and are not to be construed as limiting the appointing authority's ability to assign, or otherwise alter the duties and responsibilities of a position. This is not intended to be an exhaustive list.*

Acts as an advisor in all specialty testing areas of forensics latent fingerprint. Performs quality control functions within a laboratory. Performs other specialized and assigned duties that may include, but are not limited to: acting as the safety officer for a departmental forensic laboratory; providing training and proficiency testing to new forensic latent fingerprint employees on a continuing basis in a specific discipline. Performs expert analysis of latent fingerprint evidence, including the collection and preservation of latent fingerprint ridge detail and the comparison of known finger and palm print exemplars submitted for examination pursuant to criminal investigations. Evaluates latent print evidence to determine if a latent print is of sufficient quality to establish identity. Establishes the identity of latent ridge detail. Knowledgeable in the recovery of latent print evidence from all items of physical evidence utilizing a variety of learned techniques: alternate light source (including inherent luminescence, fluorescent powders and solution staining); fingerprint powders, cyanoacrylate fuming (superglue), ninhydrin, silver nitrate, iodine fuming and physical developer. Photographically documents evidence and latent print detail using common techniques to preserve and document latent evidence. Demonstrates advanced knowledge in the science of fingerprint development and comparison for jury comprehension. Provides expert witness testimony in District, Circuit, and Federal Courts and prepares courtroom displays to demonstrate latent print identifications when necessary. Prepares written reports documenting the examinations performed and any of the conclusions reached. Responsible for problem solving of analytical methods and for the overview of training, quality assurance, and proficiency testing in assigned discipline. Qualifies as an "expert witness" in one or more areas of the forensic latent fingerprint testing. Presence may be required at crime scenes to assist with evidence gathering and processing. Presents expert testimony in local, state, and federal courts on a continuing basis.

UNIQUE PHYSICAL REQUIREMENTS:

The work requires standing for long periods of time and possibly assisting in lifting dead bodies

TYPICAL WORKING CONDITIONS: *Incumbents in the job will typically perform their job duties under these conditions.*
